

Congress' definition of "citizens of the United States" from the 1938 Cong. Records

Posted on [February 26, 2017](#) by [David Robinson](#)

Americans have been CONNED!

.

Here is the statutory "**citizen of the United States**" (fiction) explained by Congress in plain English. WE have been CON'ned folks by the IRS, CON'ned by the several States and CON'ned by Congress, wherein people just will not believe it.

.

Here it is in Plain ENGLISH on Page 438 from the 1938 Congressional Record for those that have the ability of critical thinking and are seeking the truth.

I spent only a few minutes in the 1938 congressional Record and v'walla! I am working to challenge the "**UNITED STATES OF AMERICA**" (Congress) in their corrupt courts on the "**diversity of citizenship BS**" – 'citizen of the several States' versus a 'citizen of the United States'.

This is your "**Fourteenth Amendment**" "**subject to the jurisdiction**" nonsense.

.

No "**citizen of the United States**" has a domicile **except in D.C.** where a "citizen of the United States" is a "qualified Elector."

Only "citizens of the several States" – as proclaimed in the Declaration of Independence – **have a CREATOR** – "***We hold these Truths to be self-evidence, that all Men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty, and the pursuit of Happiness.***" Man's statutory creations DO NOT have this, which includes Corporation, LLP, etc., so therein is the logic that statutory "**citizens of the United States**" **have no CREATOR!**

.

In California, the illegal aliens and the citizens of California (most of whom are too stupid in to know what a 'citizen of California' actually is) – **BOTH get a California Drivers License and BOTH can vote. Duh?**

.

Herein is conclusive evidence that the DL and Voter Registration is a MONUMENTAL CON and FRAUD – ya think? This does not take a genius to

logic that one out. I am getting the California DL and Voter Registration Forms for Conclusive EVIDENCE wherein flows *a fortiori* that illegal aliens voted for HILLARY. Is that not Voter Fraud? Ya think? This is also why the term “alien” is not used in the current Case of the 9th on Trump’s E.O. as this would blow the LID off of the CON.

The 14th Amendment is directed SOLELY against State Laws and State Actions, through persons or agents clothed with State Authority – think about that one. So what’s with the “under the penalties of perjury” on all of the IRS Forms and other Forms that require ME to confess to being a “ citizen of the United States” under the penalties of perjury?

This is a modern version of the *trilemma* of Merry Ole England’s Star Chambers Court of England – to (1) incriminate yourself (via forms); and (2) do it under the penalties of perjury (via forms); and then (3) be sanctioned, fined, imprisoned, and lose your property by not abiding by (1) and (2). This is subornation of perjury – plain and simple – and a FELONY in Title 18 U.S.C. § 1622.

CONCLUSION

Statutory “citizens of the United States” ARE NOT *constitutional* “citizens of the several States”.
