

## Found: \$700 Trillion in Stolen Life Force Value Annuities

By Anna Von Reitz

Yesterday we confirmed that the British Government and particularly, the Government of Westminster, colluded with the Vatican to replay an old insurance annuities fraud scheme in the wake of the Second World War.

We confirmed that Prince Philip received \$950 Trillion dollars worth of precisely such "Life Force Value Annuities" from a Municipal CORPORATION in Canada, dba OTTAWA and GOVERNMENT OF OTTAWA and GOVERNOR OF OTTAWA in April 2017, precisely three days before his retirement from public life.

Now we appear to have found \$700 Trillion of the stolen loot given to Filipinos, who are, obviously, still being misaddressed as our Trustees, long after the actual Donors have shown up to claim their assets.

A Filipino woman working for the "King of Koran" was given this gob of pre-paid credit and the security codes to it, but neither she nor her king have any actual right to it despite whatever the "World Court" or any U.S. Supreme Court might think they have to say about it.

As we pointed out, both the World Court and the U.S. Supreme Court are institutions charged with administration of Municipal PERSONS and Territorial Persons, none of which has anything to do with the assets of living Americans. As I pointed out to her, no Filipino can presently claim to be "King" or claim to "own 248 nations", because:

(1) The United States of America owns the Philippines' land mass and without land, there is no national sovereignty available to the Philippines, no basis for any "kingship". We won the Philippines as spoils of war in the Spanish-American War (1898) and \$20 million dollars in gold was paid "for us" in support of the Filipino Government, and thousands of American lives have been wasted defending the Philippines ever since.

No other valid successor land treaty has ever been established regarding the land of the Philippines and no repayment for our investment has been received, so all

the Islands of the Philippines remain ours and in our possession and there is no room in America for any "king".

(2) Although the "King of Koran" may not have gotten the news, it has been illegal and unlawful to own people, that is, nations, since 1926 --- and we are all apt to have something to say about his presumption of lordship over us, especially as he is standing on ground that we bought and paid for.

There is widespread confusion on all sides but the land jurisdiction must be answered and our land treaties must be respected and both the value of the "Life Force Value Annuities" and the actual gold must be returned to the people it actually belongs to.

We hold the Pope and the British Government and the Government of Westminster totally accountable and the Government of the Philippines secondarily responsible.

All this pre-paid credit resulting from the British-Papist collusion in their worldwide insurance annuities scheme was most likely offered to the Filipinos in exchange for the actual physical gold assets in storage in the Philippines.

If so, this is just another example of the Vermin trying to give someone else's credit "as" payment to Third Parties in exchange for actual assets ---- more fraud and criminality, in other words. Someone else's credit is no "equitable" exchange for the same victim's physical gold assets--- and please note that both the credit and the gold belong to the same people being victimized by these pernicious Middlemen.

We assume that \$250 T was held back as the portion owed to the Canadians, the \$700 T was handed off to the Filipinos as "hot" goods owed to the Americans under the presumption that the Filipinos are our Trustees in the matter.

The actual "presumed" Donors of all these phony trusts and estates are here and the Filipinos are on Notice to yield back our assets with no further ado.

That includes the \$700 T in Life Force Value Annuities and all our gold stored in the Philippines where the British placed it "for safekeeping".

We wish for everyone worldwide to take note of the following:

(1) The presumed upon American Donors of these trusts are not lost, dead, or incompetent; we are present and claiming return of our assets and credit;

(2) The Government of the Philippines is not a disinterested Trustee and must stand down; the money and blood used to buy the land of the Philippine Islands in the Spanish-American War and ever afterward, belongs to us, not the British Interlopers;

- (3) Ferdinand Marcos was acting as our Presumed Trustee; none of our assets are any part of his estate and must be set aside if mistakenly encumbered;
- (4) The Heirs of the D'Avila Trust, the Santiago Trust, the V.K. Durham Trust, the Guadalupe Hidalgo Treaty Trust and many other so-called "Historic" or "Legacy Trusts" are Americans who are owed the return of their assets and investments made in their names;
- (5) Hundreds of millions of people, Americans, Canadians, Australians, the countries of occupied Europe and Japan, have all been victimized by this insurance annuities scam and much else that has been perpetuated by Papist and British-affiliated Executors de Son Tort acting under color of law and conditions of deceit;
- (6) These practices have been deliberate and criminal in nature, and based upon contrived presumptions of "perpetual war" ascribed to illegal mercenary conflicts engendered by the same British Territorial and Municipal Actors;
- (7) Both the gold and the credit derived from it belongs to the people of each country and must be returned to them and to their lawful governments without obfuscation or delay.

The King of Koran is just another figment of desperate imagination, a convenient Fall Guy known to be a nice man, obliging enough to receive \$700 T in purloined "insurance annuities" belonging to other people -- from the Perpetrators of this scheme.

The Joint Chiefs of Staff and their counterparts in NATO are under Notice and Demand. These crimes have occurred under your watch and require immediate correction. Your duty is to return the American assets to the Americans and assist in sorting this Mess out.

The assets, both gold and credit, need to be returned directly to us. We have Fiduciary Deputies in lieu of Trustees and no interest in Do-It-Yourself fulfillment of Bible Prophecies. We count on the True God to fulfill his own Prophets and leave all the Wannabes in the dust.

Possession by pirates does not change ownership --- Bynk, Book One, Chapter 17.
