

Honest Abe Debunked and Joe Biden, Too

By Anna Von Reitz

Lincoln "suspended" the right of Habeas Corpus for the U.S. Citizens and also pretended to have authority to suspend The Constitution of the United States of America and replace it with the Lieber Code.

Both these offenses have (mis) guided the operations of the U.S. Military and the British Territorial United States Government ever since, as they have mistaken Lincoln as the President of our Federation of States --- an office that he never in fact held.

He was "a" President, but not "the" President. He was foreclosed from holding the actual Federation office of The President of The United States of America and he was also prohibited from holding the office of The President of The United States (the presidency of our Federal Republic) by the Titles of Nobility Amendment (1819) prohibiting attorneys from holding any office in our government.

Thus, Lincoln himself was a cuckoo bird --- a British fakir, pretending to have authorities he didn't have and pretending to occupy an office that he didn't in fact occupy at all. He was admitted to the Illinois Bar in 1834, and he remained a member of the Bar until his death, so he literally could not be the actual President of this country.

Look closely at the way the actual offices should appear: The President of The United States of America and The President of The United States.

Now look at what was foisted off on the people: the President of the United States of America and the President of the United States.

Everything Lincoln did, including "suspending" the Constitution in favor of the Lieber Code, is by definition unauthorized, the result of deliberate deceit, and must be held null and void by any thinking jurist. This would include his invention of "Executive Orders" and his granting of "Emergency Powers" to himself and his removal of the Writ of Habeas Corpus.

Some military generals have attempted to argue that Lincoln was "Commander in Chief" in time of war, and could pretty much do whatever he wanted or needed to do to "preserve the Union"--- to which I reply that the presumption that he ever functioned as "Commander in Chief" is predicated on him being lawfully elected as The President of The United States of America, an office he never held.

And the "Union" Lincoln was bent on preserving wasn't the Union of our States, either. The "Union" Mr. Lincoln was talking about was a commercial cartel serving the interests of a foreign central bank bent on controlling our commodities markets, instead.

The entire idea that a British Territorial corporation "President" had the authority to command the entirety of the American Armed Forces, including our land forces, would have to be supported by some sort of treaty or contract allowing that----- and there is none. A most diligent search for any such treaty or agreement has failed to turn up anything supporting such a claim, and the adoption of the Naval Agency and Distributions Act by the British Parliament the following year, 1864, is strong circumstantial evidence that the Parliament knew exactly what the situation was.

Lincoln's subsequent assassination by men closely associated with the Swiss Guard and the Municipal United States Government indicates that the Pope and the Roman Curia were fully advised concerning Lincoln's deceit, too. Everyone knew except the Employers of these miscreants and criminals--- the American people.

Lincoln had become inconvenient because he opposed the ruination of the people and property of the South, and wanted to engage in a formal peace process with Jefferson Davis to officially end the mercenary conflict that we mistakenly call "The American Civil War". Not only were Lincoln and Davis technically unable to engage in such a formal peace process, peace was not in the best interests of the British Crown which had supported Lincoln from the start. Their horse had finally won, and they wanted every last penny of war reparations they could wring out of the South and the Municipal Government. Lincoln's assassination guaranteed that hostilities would continue.

When the Brits booted up their replacement organization in 1868 to replace "the" United States of America Corporation that Lincoln bankrupted in 1863, the new Scottish Commercial Corporation calling itself 'The United States of America, Incorporated" deliberately trespassed against the Good Name and Trademarks of the American Federation of States and by simply neglecting to add the word "Incorporated" they successfully impersonated us and gained access to our credit in the same way that any credit card hacker does. The banks, especially the Central Banks, that wanted control of our commodities markets, winked and turned a blind eye. Theft and misuse of American gold and credit assets meant big profits and increased coercive powers for them.

The adoption of the infamous "Fourteenth Amendment" or, as it is more properly described, their Fourteenth By-law Amendment---- as this was never any amendment to any actual Federal Constitution and was never ratified by our States of the Union --- proves that these men continued to wage illegal mercenary "war" long after Appomattox, and the continued misapplication of this so-called "Fourteenth Amendment" proves that they continue to do so to this day.

Ask yourselves --- what possible authority is vested in a By-Law Amendment adopted by a long defunct Scottish Commercial Corporation that went bankrupt in 1907? We should live our lives and apply our laws according to that? Whoever thinks so, should have their heads examined and receive this little history lesson. The American people and the entire world must wake up and accept the fact that Lincoln's knock-off "presidency" was a fraud scheme and that absolutely everything deriving from this ill-begotten piece of history is tainted by fraud and illegality.

This crime spree has resulted in the British Government manipulating and commandeering the manpower and resources of this country and using us like a sock puppet as muscle for their imperialist war-mongering and colonial oppressions through two World Wars and literally hundreds of lesser "conflicts". One can only imagine the snide self-congratulations that the denizens of Whitehall and the Inner City of London have given themselves ever afterward.

Karen Hudes was exactly right. Addressing this problem will "blow us back to the Stone Age" --- or at least back to 1860, but if we want to find firm ground to build upon, that's what we have to do.

By 1937, the Pope's Municipal Government threw in the white towel and a large amount of gold to get in on the game the British had going here. We might call this game "Illegally, Immorally, and Unlawfully Sack the Americans, Make Them Pay For It, and Then, Blame Them For It".

The result was their infamous "Declaration of Interdependence of the Governments in The United States". This document, which was never widely released to the American Public for obvious reasons, formalized the collusion of the British Territorial and Municipal United States Federal Subcontractors.

Ever since, they have worked together to coerce, defraud, defame, and deceive the American public for fun and profit.

Shortly after they formalized this new partnership, they fomented the Second World War and made it look like it was the fault of their political opponents in Germany. Conveniently, they had created the whole political party system in Germany and used it to create the Nazi Party, too. The entire "war" was scripted by the same people. And the rest of us have been kept in the dark and fed horse dung.

Every country on Earth has been impacted adversely by this British Bunko, and every government has been undermined by this deceit. The Lieber Code has morphed into the Hague Conventions instead of being recognized for what it is, and jettisoned as flotsam. The same architects of this Great Fraud, the Lords of the Admiralty, abetted by the Lord Mayor of the Inner City of London, continue their operations today, unrecognized for their role, and left largely unopposed. These thirteen men are not "Lords" in the way that we commonly think of British Lords. They don't sit in the halls of justice or attend Parliament. They are, instead, scattered all over the world, operating the world's largest crime syndicate, and running the world into the ground with no effective restraint.

Every hired jurist in America needs a copy of this information and a Notice of Liability along with it. They also need a copy of the International Notice of Distrainment.
