

American, Asian, and Spanish Asset Accounts United

By Anna Von Reitz

The Office of the Fiduciary has an important and happy announcement. Three out of four Primary Asset Base Accounts have joined together.

We expect that once the Russian and German Inheritors of the fourth Primary Asset Base Account step forward and take control of their assets, they will similarly see the wisdom and goodwill driving our efforts forward and will also join the effort.

In this way, the entire Earth will be united and striving to put an end to the ugliness of the past, determined to see that everyone has access to good food, clean water, safe housing, solid education, and everything else that is needed to thrive and enjoy life.

No more wars for profit. No more idiot politicians. No more lies. No more confused and run-amok employees.

We are on our way, folks. The steam roller is rolling at last.

Be sure to visit your mental Happy Places today and smile broadly. Being happy is the best revenge for all that you have suffered, and today, you have something to be happy about!

Love Y'all!

Grandma
