

It's Official: The American Federation Dollar is Launched

By Anna Von Reitz

After almost two decades of work, our new American currency has been launched. It's the beginning of a new way of doing business and a new way of living life for those lucky enough to catch the train instead of Covid 19.

Here is the press release concerning our decentralized international trading platform participation; more trading platforms and announcements related to them will follow.

<https://www.prlog.org/13060808-introducing-the-american-federation-dollar-afd-gold-backed-digital-currency-transforming-global.html>

Our system is unique in that it operates entirely under American Law in all jurisdictions, so that we are independent of the central banking system, free of the various coercive bank transfer pipeline operations, and all the crooked, collusive AI driven systems that seek to breach our privacy, coerce our compliance with monopolies, and control our access to the world marketplace.

Our banks and our new Prosperity Centers are also unique in that we use old-fashioned carriage accounting: money in matches against money out, and that's it. No crooked "double accrual" accounting. Each transaction has its own blockchain and its own algorithm and is direct, one to one, account to account. No middlemen.

Simple as it is, our new bank service is naturally user-friendly and super-secure. Our gold-backed currency is similarly built to be simple, stable and honest.

Even our credit is prepaid with tangible goods and services.

The American Federation Dollar is the first American Sovereign Money issued in over a century; it is opening in the market as a digital currency, but will soon be issuing gold and silver certificates for use in support of a cash economy.

Our own chartered Bilateral Banks are leading the way and our Prosperity Centers are unique in the history of the world: never before has any banking institution used prepaid credit as a currency.

So what is a prepaid credit? Most people have experienced situations where we have prepaid or overpaid a bill, and so have a credit balance with a vendor.

Essentially, the living people of this country have accrued a huge prepaid credit balance with our government vendors and that prepaid balance is now being recouped and distributed back to the people.

The new currency issued by the actual American Government is pure and simple. The new credit is already prepaid. Our Bilateral Bank System and the new Prosperity Centers are free and clear of the taint and coercion of the Federal Reserve and the IMF. It's a brand new start free of debt and free of fraud.

This is the way that you take your financial sovereignty back-- by issuing your own money and operating your own bank system.

We are all familiar with the saying, "Put your money where your mouth is." We go one step beyond that, and say, "Put your money where your heart is."

If you are sickened by the criminal behavior of the so-called government service corporations, if you don't want your money used to blow up little kids in Palestine, or pay for poisonous "gene therapies" at home, it's time to issue your own money and come back home to your land and soil.

If you are tired of paying the debts of foreign corporations and putting up with their fraud and malfeasance, their arbitrary, politically motivated coercion, their invasion of your privacy, their misuse of your credit, and their

usurpation against your Constitutional Guarantees, it's time to come home and remember who you are.

You're an American born in one of the fifty physically-defined States of the Union. You're a New Yorker, a Minnesotan, or perhaps you are an Ohioan, Virginian, or Californian. If you were born or naturalized in this great country, you are a State National.

You are not, in all likelihood, a British Territorial U.S. Citizen, but the King is misrepresenting you as his Subject just the same, and the Federal Reserve considers you their slave.

It's time to make a change. A big, bright, beautiful change.

Our online banks and Prosperity Centers are opening across The United States. Former Land Recording Services (LRS) patrons are reminded that they need to upload their prior recorded documents on the new LRPS --- Land Recording and Publishing System --- sponsored by the Global Family Group. This service is free for everyone and has the added benefit of enabling you to set up your new bank accounts, too.

Similar services will be available for people worldwide and development is underway in many foreign countries, as their people, who are victims of the same frauds and usurpation, return home, and set up their own national banks and national currencies.

A full documentary presentation will be available soon, showing your beautiful new currency and explaining the details.
