

"All Over The Internet...."

By Anna Von Reitz

I have people calling and asking me about the one million dollar claim the IRS goons from the "Department of Justice" filed against "me", and it's apparent that some of you haven't quite gotten my message yet.

So here goes --- another try to break the black magic spell that has all of you going along with this nonsense even after the "trick" has been revealed.

Imagine that I call my dog "Daniel Applegate". Does that make the man called Daniel Applegate into my dog?

Of course, not.

How about I call my Springer Spaniel "Fearless Floyd" (which would actually be an appropriate name) --- would that make him into the man using the same moniker?

Hardly.

In the same way, if you call your corporation franchise "Anna Maria Riezinger" without my knowledge or permission, does that make me into your corporation franchise?

No.

What if you call your Federal Municipal Corporation "ANNA MARIA RIEZINGER"?

Nope. Same story.

Calling disparate things by the same name does not render them into the same thing.

And while we are talking about this, naming a non-existent federal employee after me doesn't make me into such an employee, either.

So, ANNA M RIEZINGER-VON REITZ doesn't exist, and it really doesn't matter what anyone says about "her" or does to "her", because "she" is as insubstantial as a comic book character and all Mr. Applegate and the "DISTRICT COURT" are doing, is fishing for some fool who doesn't know the difference between fact and fiction.

And that's the actual Law and Facts, Ma'am.

So, if anyone or any thing, including the "Department of Justice" misaddresses you and whistles as if you are their dog, you have only to "fully inform" your other Employees of their responsibility as Public Usufructs to pay all the bills of their own franchises and stop sending you mail as if you were their franchise (dog).

Don't be dismayed if there are news stories about "me" being found guilty and fined, oh, a gazillion phony "dollars" and more.

You've already learned that if you misappropriated a suitcase full of a million of these "dollars" you couldn't be charged with theft, because they are worthless.

What more do you need to know?

Who cares if they charge a Legal Fiction Entity that they whipped up out of thin air a million "dollar" fine in Monopoly Money ---that they made up, too?

They are in another world. And it's a world the rest of us don't need to be in and don't belong to.

So leave the Land of Oz, Dorothy.

And don't give a fig about their illusion.

If enough of us wake up, it will be a long overdue end to their gravy train. So wake up. Now.

I will be posting several worthy attachments to this article from the esteemed Dr. Eduardo Rivera, who reached all the same conclusions I did.

The income tax is a payroll kickback tax on federal employment and does not apply to people who are not employees of the federal government.

And when they strong-arm racketeer you into paying them, they actually credit your "gift" as a "gift and estate tax".

That is, they admit within their own system that you aren't a federal employee and don't owe any income tax. That's why it has to be accounted for as a gift.

These people are criminals, privateers, who need to be arrested and prosecuted and would be in any sane system of government or law. It's up to us to make sure that these abuses come to an end and the sooner the better.

Notify your local sheriff what's going on. Plenty of good men and women are waking up nationwide now, and there is no time like the present.

Federal employees have no right to come into our states and violate postal regulations and make False Claims against us.
