

For All Americans to Know and Tell

By Anna Von Reitz

I received the attachments I am forwarding [today](#) as part of a larger array of informative jpeg files amassed by other Americans who are engaged in educating the public. It's always such a joy and inspiration to see how many Americans are now "on the scent" and bringing forward the evidence and knowledge that our people so desperately need.

Please take the few moments it will take to educate yourselves about our flags and the "US Take Over" by foreign corporations that have been quietly invading our national and political life as well as our commercial markets.

Knowledge is power.

To the extent that you share this information and empower your fellow Americans, you empower yourselves. Let's begin with the flag. Which one should you be flying?

Share this information widely through your internet network. Print it off and distribute copies to friends and neighbors and community leaders. Share it with those you know in the military and police forces so that they know what's going on and know how to interpret the meaning of the flags they see.

By doing so, you help cut down the ignorance and confusion that is strangling us. You safeguard yourselves by flying the right flag. And you safeguard your communities.

By living under the peace flag, you promote peace. By flying the peace flag as a peacekeeper, you promote obedience to the principles of peace on the land.

The civil peace flag is the symbol of the peace and security that you and your families are owed from the British Crown and all other incorporated entities.
