

Urgent Message to Americans Age 80 and Over

By Anna Von Reitz

We need your help.

False claims are being made to the effect that we consented to being British subjects, that we willingly consigned all our assets and land and homes as chattel backing the debts of the British Crown Corporation and voluntarily adopted a Commonwealth as our form of government, that we gave up our constitutional guarantees, and that we agreed to be considered "citizens" of the British Territorial United States, purportedly in equitable exchange for welfare benefits that we financed and paid for ourselves.

In fact, we were never told about any of these false claims.

This Hogwash being promoted by the guilty parties needs to be rebutted and rebuked by the eye-witnesses who were alive at the time and who have first-hand knowledge of the facts and events.

We have abundant evidence that on March 6, 1933, at a private meeting of the Conference of Governors, the British Territorial Governors "pledged" the assets of "their states and the citizenry thereof" to pay off the debts of the "United States of America" Incorporated, a religious non-profit corporation fronted by the Roman Catholic Church as a Delaware Corporation in 1925 and bankrupted in 1933.

Of course, their "States of States" had nothing whatsoever to do with our States and their "citizenry" had nothing to do with our State Citizens.

Nonetheless, as a result of this "pledge" of foreign assets, Americans were deliberately mistaken-on-purpose as British Subjects, and kidnapped into the foreign jurisdiction of the British Territorial United States, there to be plundered and conscripted and divested of their rights, property assets, and other guarantees in Gross Breach of Trust.

We have abundant evidence that Franklin Delano Roosevelt lied through his teeth to the American People and never disclosed the meaning, intent, or result of his New Deal---- which was treason wrapped in a blanket, a self-serving and odious plot to further undermine our national sovereignty and rob us blind for the sake of foreign interests.

And now they want to claim that we all knew what was going on and willingly, voluntarily consented to all this abuse and damned lies and false claims and foreign Inquisitors occupying our courtrooms to collect debts we never owed.

There can be no words competent to describe the infamy of the British Territorial United States or the criminality of the Holy See for allowing any of these practices against The United States of America and the innocent American People.

According to their deeds, Rome, Westminster, and London should all be turned to sheets of glass, with Hong Kong and Washington, DC and Ontario, Canada, to follow.

We stood by these wretched bastards through two World Wars, and this is the thanks we get for it. They have attempted to genocide us on paper and leave us holding the bag for all their debts, all their war-mongering, all their sins.

So now is the time for pay back and an end to all this self-serving drivel that we "consented" to any of this abuse and theft.

We are calling upon those Americans who are 80 years of age and above to come forward and give testimony based on their living recollection of the events taking place in the 1930's and 40's. We are calling upon their sons and daughters to help them do the paperwork and get their testimony witnessed by a Public Notary and recorded at the local land recording offices. We are asking that you all send a certified copy to: The Living Law Firm, 1336 Staubbach Circle, Anchorage, Alaska 99508.

In doing this, you will also create a Public Record in defense of your own property and establish evidence to protect your whole family from these vermin and their lies.

We realize that this may be a bit difficult to organize, so we have created and attached a basic template that can be used all over the country. For those who have more specific information to bring forward and who feel competent to do so, please add and adjust. For convenience sake, we colored the specific information you need to change in the template red.

Please discuss the situation with your Elders and those who understand the situation, please encourage them to come forward and testify in behalf of all Americans. And get it on the record, so we can shove it down their throats.
