

Another Voice Heard -- A New Avenue of Relief

By Anna Von Reitz

We have determined what was done to us, when, how, by whom. And now, what goes around, comes around --- to quote my Nephew Jonathan's favorite adage.

I have discussed at some length the pollution of the English Common Law by admixture with British Admiralty and Maritime Law that occurred in the 1750's and which has given rise to "the King's Equity Law" --- in which the King has all the equity and Judges sit as proxies for the King.

Just as the vermin have mirrored everything else, it turns out that they have mirrored Equity Law, too.

What they call "Equity Law" --- their kind of Equity Law --- isn't Equity Law.

I guess we could have all told them that, eh? -- but their semantic deceit and trashing of the entire concept of Equity Law, their defilement of its meaning and reputation, again conceals the truth of the matter.

It turns out that there actually is pure Equity Law and it actually does deliver justice and equity--- unlike their cruel sham that mocks the concept.

Beginning next week, May 22nd, we will all have a precious chance to learn more about Pure Equity --- how to invoke it, how to process claims, how to obtain relief and restitution which so many people desperately need.

The introductory call is next Tuesday, May 22nd, at 7:30 CST. The call in number and access code is: (712) 775-7035 918810

I asked the instructor to change to Tuesday so that his calls won't conflict or overlap with the National Assembly calls and he kindly agreed.

The intent is to develop a highly competent core group of students who will be enabled teach and counsel others. Members of the Living Law Firm are being alerted to participate.

Securing practical relief and restitution for all the people who have suffered is one obvious (and large) goal of The Living Law Firm; restoring our lawful government and getting America back on track is another.

These major goals have to work forward in tandem, together. So while we learn about this new avenue of relief on Tuesday, we still need to keep going with the organizational effort summoning the State Assemblies.
