

A Question For You

By Anna Von Reitz

I get asked questions about all sorts of things all year long, everything from, "Where's the ketchup?" to "Why is soap slippery?" and "What can women do about leaky bladder syndrome?" and "Why is the US Navy always in a bind?"

Okay, well, fair is fair. I do my best to answer all your questions all year long.

Here is my question to all of you ---- would you trust an unknown foreign lobbyist to house sit for you?

No? Am I crazy?

Then why are we letting 515 foreign political lobbyists "house sit" our entire country?

Hmm? It's a fair question. It is nothing personal. It certainly isn't anything against Donald Trump, nor, for that matter, is this question "aimed" at anyone. It's just the pure fact that for a century and a half we've been doing something that amounts to lunacy.

We've been letting paid political lobbyists run our government, instead of running it ourselves according to the blueprint our Forefathers established and gave to us. And most of us have been so clueless that we haven't even realized who those people in Washington are----and in what capacity they are acting.

They aren't acting as our agents and representatives at all. That's why they are so arrogant and non-responsive when we bring forward our questions and concerns. That's why they spend our money like drunken sailors.

We've got foreign lobbyists house-sitting for us, and they are throwing drunk-drug-sodomy-pedophile-you-name-it parties on our expense accounts every night of the week ---- and when the neighbors (other countries) complain, the Pretenders throw the blame for this situation on us: "the Americans".

Well, it's not the "Americans". It's the "US Citizens" guilty of this, and of war-mongering, theft, and a great many other crimes, too.

But at the end of the day ---- it's our house.

Now you've got the Municipal United States Government promoted by the "US CONGRESS" duking it out with the Territorial British and French Corporations. For us, it's all the same proposition --- merely which unknown foreign political lobbyist is going to "represent" us and live in our house while we clean the pig sty.

Me? I choose to live in my own house without giving free rent to any foreign political lobbyists. I choose to operate my own government, thank you, very much. And I invite you to keep that thought in mind.

In the days leading up to this January First, as we wave good-bye to the old Municipal Government and its agencies, there is a blessed sense of relief --- but in order to make that relief count for something and ensure that we are not simply bamboozled once again ---- we have to keep awake and on our toes.

Otherwise, they will just pass off "two of anything else" to keep the same old "pillar to post" scheme operating. There's a danger that they will just say, "Oh, don't like a choice between Municipal and Territorial Government? Okay, well, then, you can have a choice between two Territorial Governments, one run by a British Corporation and one run by a French Corporation....."

And set up the same old game again.

Yes, we do have to finish the so-called "reconstruction" and put all the federal corporations and lobbies back in their boxes.

And there is nobody here to do it, but us. Think about that as you toast in the New Year, and join me in devoting yourself to literally finish the job we've started.
