

Immediate Arrest Requested

By Anna Von Reitz

Crimes of impersonation are being committed against the unincorporated Federation of States.

Certain persons including Keith Livingway and members of a cult known as The Reign of the Heavens Society have impersonated the States of America and have attempted to front a commercial corporation lodged somewhere off-shore as THE UNITED STATES OF AMERICA.

Now they have opened a bank under these False Pretenses and are attempting to issue currency "in our names". This so-called "rainbow currency" is a fraud upon this country and its people and an attempt to hijack our credit, similar to what any common credit card hacker or identity theft artist does.

These felons must be apprehended and the location of their overseas corporation calling itself "The United States of America" must be found and this phony commercial corporation operated "in our names" must be expunged.

The Federation of States known as The United States of America is not now and has never been incorporated. It is a sovereign instrumentality, and only the actual Federation of States has the unique right to issue credit or notes at this time.

All rights and powers once vested in the Federal Republic have returned to the Delegating Authority by Operation of Law and it will remain so until the Reconstruction of our American Government is completed.

Anna Maria Riezinger, Fiduciary
The United States of America
