

International Public Notice: Ask Yourselfes

By Anna Von Reitz

Would it in any way be appropriate for a British Territorial Government to occupy a foreign sovereign nation like Spain, to the threat and detriment of the actual Spanish Government?

We don't think so.

We think that the presence of British Territorial Mercenaries unlawfully occupying this country and numerous other countries is a systemic failure of international and global law.

So now we come to the curious "offer" which has been placed on our table by Mr. Trump and the "Alliance". They propose to, in their words, "re-inhabit" our American Federal Republic which we operated from 1787 to 1861, and simply substitute their British Territorial organization for our "missing" Federal Republic.

We will note that it is not possible for them to "re-inhabit" our Federal Republic, because they never inhabited it in the first place.

Our Federal Republic Government was staffed by Americans who underwent an arduous evaluation and process to become United States Citizens. This process and the particular Citizenship involved is described in the First Naturalization and Immigration Act.

Please note the Federal Republic was staffed entirely by Americans who chose to serve their country in foreign jurisdictions and exercise delegated powers on our behalf.

They were United States Citizens, not U.S. Citizens.

All U.S. Citizens are British Territorial Citizens, like the people of Puerto Rico, which is a British Commonwealth nation to this day.

They are British Subjects, not Americans.

So how would a bunch of "Tories" --- British Territorial U.S. Citizens, registered as such by Birth Certificates and labor contracts --- propose that they should act as Successors to the American Federal Constitution -- The Constitution for the united States of America -- and enter our Federal Republic and substitute themselves and their services for our own people?

Imagine a group of French Foreign Legionnaires offering to take over bureaucratic control of a substantial portion of your government under color of law. What would you tell them?

Strangely, this bizarre proposal is being fortified by ignorant Americans who still don't realize that they have been operating in a foreign political capacity as U.S. Citizens. They think they are the "real Americans" and the rest of us don't know what we are talking about.

But we do.

Here is an example of it:

<https://republicfortheunitedstatesofamerica.org/>

These confused individuals are parroting a false narrative fed to them by foreign interests and don't even realize it. They don't know that each and every one of them is disqualified by having adopted a foreign citizenship status, that of a British Territorial U.S. Citizen, and acting as presumed British Subjects.

They don't realize -- yet -- that in their current condition, they lack standing to populate an American State of the Union, much less a Union State.

They can be somewhat forgiven for their clueless ignorance, because they were "registered" as U.S. Citizens while still babies in their cradles, so that the foreign citizenship contract was totally unconscionable to them and was never disclosed to their parents.

Later, while the victims of this Unlawful Conversion were in grade school, these manufactured U.S. Citizens were all declared legally dead, missing, lost at sea, whereabouts unknown, and the U.S. Trustees declared their intestate estates to be public trusts administered as "citizens of the United States" under the control of the Holy Roman Empire's Municipal United States Government, dba, United States, Inc.

Both these Great Villains, these Dishonorable Principals, and False Allies, have preyed upon the gullibility and induced ignorance of the American population in an attempt to make us forget who we are and how our government is intended to be structured and run, so that they can usurp upon us, their employers, and control our people and our resources via undisclosed substitutions and semantic deceptions.

If this is confusing for Americans, we can only guess how confusing it has been for the rest of the world, which has also been ensnared in this Great Fraud.

As for the representations of Mr. Trump and the Alliance, and those unwitting Tories trying to front another substitute government for them, we can only counter-offer; they need a new Constitution to serve under, that's true, but they are not the Successors of our American Federal Republic and are not United States Citizens, either.

Without legal standing as a Successor to the Federal (1787) Constitution Contract, and without the proper Citizenship, they can't "get there from here". We are certainly not offering to just open the door and let them come in and play their Substitution Fraud Game again.

What they can do, is to do what we have done. They can declare, record, and publish their birthright political status as Americans, acknowledging their loyalty to our government and accepting their political status as freeborn American State Nationals.

Then we can talk about altering our Public Law to allow them to provide services under The Constitution for the united States of America (1787).

Just as the Municipal United States, Incorporated, has been dissolved, they can dissolve the United States of America, Incorporated, and The United States of America, Incorporated, and the USA, Incorporated, and the U.S.A., Incorporated,

and all the many other deceitfully named corporations that they have created in their ongoing attempts to impersonate us.

They can surrender back all beneficial ownership interest in the phony British Seaman's Estates that they created out of thin air and used as a means to impersonate us and purloin our credit and latch onto our Good Names and physical assets.

If they want to work for us in "good faith" they need to return our stuff.

They can deposit our American assets back into our American Federation Treasury and into our Sovereign Treasury Accounts held in our chartered Global Family Banks.

They can return to us what is lawfully and legally ours. They can stop illegally and immorally occupying our country. They can turn over the helm to the actual civilian government of this country. They can be employed as honorable national military officers and enlisted --- not as undisclosed mercenary forces.

They can come home. They can be honest. There isn't anything about this story that we don't already know or which would overly surprise us.

All the cloak and dagger deceptions and foreign "National Security" concerns need to go away and be replaced by simple truth.

We understand that Mr. Trump has been elected to an Office, that of "President of the United States" which has vaporized with the dissolution of the United States, Incorporated --- and can't rationally be replaced by any unincorporated version of anything calling itself "the United States", when the actual name of the country is "The United States" and has been since the 1850s.

We understand that he, Mr. Trump, as a British Territorial Officer, is between a rock and a hard place and trying to consolidate British Territorial interests by forcing a "merger" with CANADA, which as a Corporation Franchise of the UNITED STATES, is also dissolved and which costs this country over a hundred billion dollars per year and owes us a very substantial trade deficit.

We object on the grounds that all Beneficial Ownership Interest in all the dissolved assets and franchises of the UNITED STATES, INC. belong to the living people of

this country, that means CANADA, AUSTRALIA, etc., because we have paid the debts and the operational expenses of all these Municipal Corporations.

The decisions about collecting or forgiving their debts is not for Mr. Trump to make.

It's not Mr. Trump's debt to collect. His authority extends to enforcing foreign trade policies, but setting foreign trade policy is the job of our American Federal Republic, or in its absence, the job of our Federation of States.

We have also paid all the debts and operational expenses of the British Territorial counterparts operating as Canada, Inc., and Australia, Inc., et alia, and they are also substantially bankrupt and in receivership to us.

Remember -- their National Debt is our National Credit. Remember that aside from "service", no actual government Subcontractor produces anything on the books. What they do as Black Ops is outside the context of their obligation to serve us under their specific Constitution and most such enterprises are illegal.

From a business standpoint, it makes sense for Donald Trump to call the cards and force CANADA to fold, which will give the appearance of making the underlying Territorial Company, "Canada, Inc." a direct franchise of the current version of "the United States of America, Inc." and give the impression that the two countries are now "united"--- when in truth, all that is being united are business administrations.

We are sick of these kinds of deceptions being pulled off on the public and all these business moguls trampling over the rights and material interests of the actual nation-states and people.

We are sick of British Territorial Officers, either members of the U.S. Military or members of the Bar Associations, pretending to be our "President", when in truth, they are acting as Presidents of foreign corporations that are supposed to be providing us with "good faith service" under public service contracts known as Constitutions.

Our American President is elected by our qualified State Assemblies, not by a ludicrous glitzy strawpoll misrepresented as a public election.

A public statement of loyalty and proper political standing is really the only way to go forward, as any other option means building on sand.

If the Alliance is backing Trump, they need to evaluate the situation; Trump is a Dutch East India scion largely in the pocket of the Zionists; he may want to make America great again, but at what cost to America and the rest of the world?

The profiteering and war-mongering of the Zionists might seem attractive to some members of the military, but we all know that the actual purpose of an honorable military is peace.

No national military should be engaged in killing babies and children and helpless women and healthcare workers and journalists for economic gain, which is precisely what Benjamin Netanyahu has been doing in Gaza, Lebanon and Syria since last October.

Trump is still supporting Netanyahu and the Zionist regime he represents. After suffering the loss of 30,000 innocent civilians, Trump is still standing behind podiums telling the Palestinian people that they have to stand down or else.

What exactly is the "or else"?

They are already being genocided into oblivion. Israel has already dropped more bombs on Gaza than were dropped in the entirety of World War II. They are already running a strict apartheid state, where public hospitals don't serve the Palestinians who help to pay for them.

We think the Palestinians have already seen the "or else" and that Israel as it currently exists is a genocidal rogue nation that desperately needs a change of government and administration, not assistance and support for its crimes against the Palestinians, Lebanese, and now, Syrians.

Trump also set up and kicked off the phony Pandemic to fill the ailing coffers of "the United States of America, Inc." and bail it out of Chapter 7 bankruptcy. He was apparently willing to sacrifice the lives of millions of Americans and billions of other innocent civilians worldwide to save an unworthy, duplicitous commercial corporation.

That is a decision and a taint that will follow him to his grave, if the actual Donald John Trump isn't already dead.

The Alliance needs to rethink things. Seriously. Rethink the entire narrative the Alliance has been selling and the way it has been doing business. People aren't buying the narratives. It's not aligned with the Truth. It doesn't build peace and prosperity. It doesn't give the world a new start --- just a reshuffling of the same old dirty laundry.

Yes, we have heard all the NESARA/GESARA pitch and the Great Reset pitch and all the rest of the bandaids on offer. We were there when the actual Nesara restitution was proposed. We are sick of the kinds of deceptions that are still being employed --- Economic Stabilization Fund, Economic Security Fund --- ESF or ESF, Nesara or NESARA?

People are not stupid just because they have been kept ignorant and deceived by criminals.

After we accepted our work from the hand of God, we were visited by an angel who kissed our forehead and simply said, "It's time."

It's time for all this deceit and ugly nonsense and pollution and criminal profiteering at the expense of the Earth and its people to end. Let those members of the Alliance who have seen the worst of it contemplate the situation set before them.

Satan and all his deceptions are exposed and overthrown; the new Age has dawned. Soon the Central Sun will recalibrate. The timelines will split off, severing what is true from what is false. Which side of that divide will you be on?
