

International Public Notice: Attention President-Elect Trump

By Anna Von Reitz

It has come to our attention that the treasonous members of the U.S. Congress have extended provisions of the PREP Act to provide a "legalization" of the otherwise completely illegal and unlawful citations of this monstrous piece of legislation, so as to impose upon the General Public as well as Federal Employees.

This must come to a permanent and immediate stop.

We are aware that numerous parties are advising you to keep the results of the Brunson case under advisement and to simply wait out the entire thing and let the transition appear to be normal, when in fact it is anything but normal.

We have no wish to extend the illegal mercenary occupation of our country by as much as another day, however, if you are intent on doing your duty, that duty has never been clearer.

Arrest the members of the U.S. Congress who have committed these atrocious crimes against us and against humanity and bind them over for trial. Announce the results of the Brunson case without delay. Put an end to this travesty of justice.

There are only 515 people responsible for this Mess, plus approximately 40 former members of Congress, and a few hundred senior bureaucrats in executive services and the intelligence community. Arrest them now. Don't wait.

These criminals have already spent billions of dollars of unauthorized allocations of our credit to promote criminal purposes. The death toll worldwide from Mike Pompeo's "live exercise" stands at nearly 31 million souls.

There isn't a single word about health in The Constitution of the United States of America, nor is there any authorization allowing any Successor to redelegate any administrative or delegated powers to the United Nations or any foreign commercial or municipal corporation whatsoever.

The entire public trust scheme seeking to redefine Americans as British Territorial U.S. Citizens is a farce and the additional sin of creating Municipal Corporations named after them is a blatant act of personage, and the practice bringing charges against these entities is another crime --- barratry.

Jimmy Carter's transfer of the fraudulently constructed birth registrations as securities to the IMF was another criminal act in Breach of Trust and service contract(s). His purported turning over of the American populace to the control of the United Nations is yet another egregious fraud, betrayal, and misrepresentation.

None of this requires any great deliberation in view of the evidence. We have labored under the miseries of this False Narrative since 1863. Waiting another month to end it serves no good purpose and only increases the likelihood of a nuclear False Flag, another "pandemic" or similar harm to the living people.

Take them down. Now. Before another penny is spent or another life lost.
