

Why We Blame the Civil Service

By Anna Von Reitz

Information provided to H.E. Cardinal Mamberti and the Vatican Chancery Court regarding our Claims, [March 6th 2005 - January 19th, 2023](#) in seq:

A few days ago we covered in some detail what we hold against the military subcontractor run by the British Crown Municipal Corporation Subcontractor as a Territorial Mercenary Force, the equivalent of an American Raj. Now we turn our attention to the Federal Civil Service and its sins against their American Employers.

The Federal Civil Service makes up the other side that has been necessary to keep the phony Mercenary Conflict and Government Substitution Fraud going for over 150 years.

They are the inheritors of the Federal Civil Servants who fought in the so-called American Civil War with the Southern State-of-State forces known as The Confederate States of America.

The Southerners had the good grace and honesty to admit that they were operating as "Confederate States" and not as actual "States", and thereby at least tacitly admitting that they were engaged in a Mercenary Conflict, not an actual declared War.

The military end of this giant crime has been promoted by Britain and the Crown operating in Territorial capacity, while the civilian service end of things and especially the federal postal service, have been handled directly by the Holy See and its subcontractors from the very beginning.

This initial role for the original Holy Roman Empire employees was very limited, but as we shall see, these positions and the use of these bureaucrats as "slaves" of the British Territorial military has had a profound and severely damaging effect for them and for us, beginning in the 1930's during the Administration of Franklin Delano Roosevelt.

It was under FDR's mandate to create as many federal jobs as possible that dozens of new government departments and over 350 "Federal Agencies" were created, and an estimated 85%

of these new Municipal Corporations and federal personnel had nothing to do with the military. They were mostly civilian bureaucrats, initially operating under the direction of the Holy See and its Municipal Corporation subcontractors --- and for a while, all went well enough.

The insidious part, other than the additional and largely unnecessary burden of all these new federal employees on us, their loyal employers, came with two later innovations: (1) the use of the Federal Civil Service members to duplicate work the Territorial Government Subcontractors were already doing, and (2) selling and/or otherwise losing control of certain key "Federal Agencies" --- most especially, the Federal Bureau of Investigation (FBI), the United States Marshals Service, the Central Intelligence Agency (CIA), the United States Treasury, the United States Patent and Trademark Office and the Bureau of Alcohol, Tobacco, and Firearms.

As a result of FDR's new "federal" departments and agencies, we suddenly had a duplication of services all across the board and we were stuck paying for both. We had the British Territorial Department of Labor and the "DOL" operated under the Federal Civil Service provider doing the same work, and for the most part, the actual service was provided by the Federal Civil Service with the Territorial counterpart taking its ease and assuming a "monitoring" position.

Both these systems, which were either taken over in the wake of the Civil War by the Territorial military forces on an "emergency" basis, or added later under FDR, were, for the most part, never supposed to be operated by these two foreign Municipal Corporation Subcontractors at all.

The Territorial military was supposed to be helping us out on the "High Seas and Navigable Inland Waterways" and the Federal Civil Service was supposed to be running the Post Office, and virtually all the other functions were intended to be run by the American Federal Subcontractor, our own American Federal Republic.

Instead of assisting and defending their employers, these renegade Municipal Corporations operating out of the District of Columbia, are currently engaged pretending that they are representatives of our American Federal Republic -- a property and interest that, again, belongs to their employers, not to them.

Donald Trump and his supporters in the Territorial military have repeatedly signalled their intention to substitute their corporation "President" for our Federal Republic President, which is grossly improper, and which would amount to yet another British Territorial Substitution Fraud Scheme.

In view of the end result of allowing a Confederation of states-of-states to exist and run the Federal Republic, our American Federal Subcontractor, which was supposed to provide the oversight and the majority of the eighteen enumerated services, we may not choose to resurrect the failed Confederation at all. That is, as it always was, the prerogative of the states of the Union.

As the years went on and the American Public was lulled back to sleep (after all, the services were being provided and we were never explicitly told which Subcontractor was responsible for which service) the two remaining foreign Municipal Corporation Subcontractors eagerly gobbled up all the work intended for the Federal Republic workers and never said a word.

The Federal Civil Service bureaucrats, like their Territorial military counterparts, never once turned to their actual employers and said, "Why are we doing this service for you, when your own American Subcontractor is supposed to be doing it?"

If we could be kept asleep, these two colluding (since 1937) foreign Municipal Corporations and their "Presidents" could continue to control and pad the cost of what remained of the federal government however they liked, borrow whatever coercive powers they chose, access our credit without our authorization and we, their employers, would be none-the-wiser.

This is, in fact, what has been practiced against us and against our interests.

We blame the military and the civilian Federal Civil Service equally for their self-interested misrepresentation of their American employers, non-disclosure to their employers, and the many fraud schemes they have employed against their employers for their own benefit.

American History disappeared from our public schools and only "United States" History was presented, leaving people with the idea that only "US" citizens exist and that citizenship is the only political status available to Americans.

We were systematically and purposefully registered as foreign citizenry and stripped of our natural political status as nationals of our nation states of the Union under conditions of misrepresentation, deceit, non-disclosure, and color of law by persons employed by the same Municipal Corporations under discussion.

More and more coercive powers were assumed by so-called "federal" personnel and both the Internal Revenue Service and the IRS were set loose like vicious dogs on the General Public of this country and we were forced to pay "federal income tax" on our private sector earnings, while never receiving a penny-worth of actual federal income.

The Territorial military, hungry for more payola and power, became expert at generating False Flag events and propaganda, expedited by their control of our airwaves via the Federal Communications Commission (FCC) and airspace (FAA) and media outlets --- with the result that the American people were deliberately misled into undertaking (and paying for) two World Wars and literally hundreds of lesser Mercenary Conflicts for their corporate benefit.

All this fighting and destruction and bombs in the air weren't doing the other countries that were the targets and victims of this veiled, self-interested war profiteering any good, either. Their peace and progress and happiness has been constantly disrupted by these Municipal Corporations pretending to be governments, when in fact, they are commercial organizations in

the business of providing government services and have no granted authority to function in the capacities of an actual government --- and no natural right to exist.

All the Territorial military organizations occupying Great Britain, the former Commonwealth, The United States, seventeen countries of Western Europe, South Korea and Japan had their own version of the Raj, but increasingly they were all tied together, continent by continent, and placed under a central command structure that was in turn directly tied to their political parties and foreign Municipal Corporation "Presidents".

All of this misery and criminality was brought to our shores and we were used as both the money and the materials to produce this end result, by two foreign Municipal Corporations that were supposed to be here providing us with (1) assistance on the High Seas and Navigable Inland Waterways and (2) postal service.

Most recently, the Federal Civil Service has been armed to the teeth with surplus military equipment and over 800 FEMA Camps have been built on our soil, while the employees of the FBI, CIA, BATF, IRS, DOJ and so on, which are all owned and operated by the Municipal Corporation dba DEPARTMENT OF DEFENSE, INC. have been fed a whole bunch of lies about criminal "insurrectionists" labeled as "sovereign citizens" ----that is, their erstwhile long-lost, disrespected, and misrepresented American employers who have noticed that the unauthorized military district courts are not functioning as courts of justice and that their own constitutional Guarantees to such things as free speech and the right to bear arms are not being honored by their own public employees.

Many have also noticed the open criminality of Joe Biden operating as what appears to be our American President, while in fact operating a foreign Municipal Corporation "President", allowing senseless looting and rioting throughout this country, allowing and promoting the Vaccine Genocide, and only a fool would miss the fact that he threatened to blow up the Nordstream Pipelines --- and did so, to the harm of our traditional Allies throughout Europe.

Many Americans have also noticed that, despite his much better business acumen and apparent fondness for this country, Donald Trump has promoted the same Vaccine Genocide and done a lot of saber rattling for the Territorial military which has been trying to generate an excuse for World War III.

What we have here, masquerading "as" our government, is not our government --- it's just two out of control, self-interested Municipal Corporation Subcontractors housed in the District of Columbia -- entities that are supposed to be providing us with "essential government services" in good faith, but which are both operating under false pretenses and in Breach of Trust and service contract instead.

All of these problems could have been solved long ago by either Municipal Corporation, but they chose to power-monger and cheat and misrepresent their employers, instead. Either one could have been honest and asked the American People, our State Citizens, for guidance.

We wish for these Municipal Corporation Subcontractors to be liquidated in our favor and transferred to our direct control. We wish for an end to all presumptions of "emergencies" and "wars" and "custodial interest" on or in our soil, removal of the foreign military districts and military district courts, an end to all military occupations by so-called territorial forces, an end to the presumptions of the Internal Revenue Service/IRS to the effect that our earnings are federal income, respect for our Constitutional Guarantees from all Municipal Corporation and state-of-state and county-of franchise employees, an end to all the preparations for yet another illegal, unlawful, and immoral "civil war" on our soil ---when in fact, at the end of the day, all these corporations are owned and operated by the same people.

There aren't even two sides to this purported conflict, and all concerned Municipal Corporations, both those housed in the District of Columbia and those associated organizations occupying similar enclaves throughout the world, have violated the privilege of incorporation and the basis for their own existence. They have all been heavily engaged in unlawful activities since 1840 in Britain, 1860 in The United States, 1917 in the Former Commonwealth and again in the 1960s throughout the Former Commonwealth, 1939 in Western Europe and Japan, 1950 in South Korea.... the list goes on.

We wish for all the phony "governments" promoted by these Municipal Corporations to be collapsed in favor of the actual lawful governments of each country.

We wish for the banks to shut down the unlawful and illegal access that these renegade Municipal Corporations have had to our credit resources. We wish for our accounts, both credit and hard asset deposits, to be restored and reopened under our own control, and for all concerned to recognize that the lawful American Government is present, is in Session, and is competent to conduct business and run its own affairs.

We have chartered our own banks for the purpose of distributing prepaid credit back to the victims via our own commercial bank system, and for the purpose of distributing our own asset-backed money, our well-known United States Silver Dollar, our gold-backed American Federation Dollar, and certificates for the same, through our international trade banks.

We recommend shutting down the central banks as a failed and mostly criminal experiment; their control of commodities, and especially currency commodities, has not led to the security, stability, and peaceful world economy they advertised as the result of their activities.

Like everything else, the potentially helpful and positive functions of the central banks have been undermined and usurped by the criminal Municipal Corporations operating "as" governments, and the central bank functions have instead been used to promote political and economic agendas dictated by these commercial corporations.

Specifically, the central banks' ability to impose so-called "economic sanctions" have been politically and economically motivated by these renegade Municipal Corporations instead of being motivated in the interest of world or even national economic security, stability, and peace. Their control of national currencies has not overall led to an end of counterfeiting ---

instead, we have suffered the worst episode of international counterfeiting in world history orchestrated by the Obama Administration. Likewise, the central bank system has failed to control widespread inflation and deflation of currencies and currency manipulation for illicit commercial gain.

At the very least, a transparent public understanding of the central bank system, bank leadership that is accountable to the public, and an end of self-interested manipulation of the system for the benefit of the Municipal Corporations herein under discussion, would result in far greater likelihood of success in achieving the potential benefits of central banking and would serve to curtail the abuses of it.
