

Bottom of the Ninth....

By Anna Von Reitz

Grandma's cupboard is bare.....

I normally give the lion's share of my income to support the efforts of The Living Law Firm and the researchers and paralegals supporting us, but it isn't going to happen this month. This month, Grandma has had family problems of her own.

My dog who famously survived lymphoma by eating dandelion root also suffers from laryngeal paralysis, an inherited affliction of older Labradors that affects their voice box -- their bark and the opening and closing mechanisms of their wind pipe. This in turn affects their ability to pant and cool down. In hot weather, it is potentially deadly.

Now, my dog is old, but he is otherwise in good shape and as lively and playful as ever. So doing the Tie-Back Surgery has given him a new lease on whatever life he has left. I wish you could all see how happy he is, now that the surgery is over and he can pant to his heart's delight in this warm weather.

So in terms of things that matter to me, taking care of my animals and giving them the best care and the most life and best life I can, is a priority.

Also this past week, my son suffered a dental emergency that has resulted in dental surgery and we all know what that means in terms of the Big Bucks.

So, no, I won't be contributing a whole lot to The Living Law Firm and the researchers this month, because I can't. Those of you who can---- we are sitting here with every free-booter in the Western World trying to overcome our claims to our own country --- and yes, we need your help.

My PayPal is: avannavon@gmail.com and checks and other donations can be sent to: Anna Maria Riezinger, c/o Box 520994, Big Lake, Alaska 99652. Please make checks payable to me, because I then distribute to researchers and paralegals and others in addition to just those non-Bar lawyers who are part of The Living Law Firm.
