

## The Brits Big Picture

By Anna Von Reitz

We told you that the British and their Roman compatriots decided that things were getting too hot in this country prior to Ronald Reagan's administration; they made all the overtures, paid all the payola with our assets, encouraged our industries to leave America and move to China with huge tax breaks, yes, yes, to take advantage of Chinese slave labor.

It was all so schmarmy. Lots of celeb photos of Ronnie, the Great Peacemaker, selling us out, surrounded by equally smiling Chinese politicians.

That's where and when the exodus of industry from America to China began, and the first moves to relocate the parasitic "British Crown Interests" to China began.

Who is engaged with and a member of BRICS right now? The Brits, of course. Plying their dirty trade as Masters of Deceit, trying to distance themselves from the financial disaster they have created.

It's not only a matter of them hypocritically destroying the criminal financial system they set up here and profited from for 160-plus years --- at our expense. It's the cheek of them blaming us for it.

These are the same people who call concentration camps "gated communities". The same cynical wordsmiths that call genocide "ethnic cleansing" in an effort to side-step the truth --- and the law.

They are vicious, because they know they are guilty.

As soon as you catch on to who has done all this to us and to Western Europe and Japan and the former Commonwealth, you can start working out the solution to this problem. And it doesn't involve war in the Middle East. And it doesn't involve any "civil war" here.

It instead requires a worldwide round-up of criminals, caught red-handed.

Warn everyone else. Don't let the parasites continue their activities without raising the alarm. Showcase and spotlight the one country that is always, always, always at the bottom of the dogpile and its Roman Curia masters.

When people are misled by the British Bunko Artists, anything is possible, even complete reversals of logic.

Imagine the irony of Microsoft firing employees who participated in a demonstration for Palestinian relief and accusing them of being Anti-Semitic?

If you are pro-life and anti-war, if you are for peace and against naked commercial aggression, you are now "Anti-Semitic".

According to research done by Michael McKibben and others, there are no actual Hebrews left, and the vast majority of those who consider themselves Jews in the current day have no Semitic blood at all.

So calling those who resist the slaughter in Gaza "Anti-Semitic" is really the height of both ignorance and hypocrisy: because the most humble Palestinian or Yemeni has more Semitic blood in his fingertip than Benjamin Netanyahu.

The true "Anti-Semites" are obviously all those who are killing the Arab peoples, including the Palestinians.

And guess who is right there, promoting the genocide in Gaza?

It's time for us all to realize that we have been snookered. Royally.

How is this possible? Ever heard of buying influence? Literally? Meet AIPAC, the Zionist-Israeli Lobby:

And last but not least, if you have been feeling that "nothing makes sense anymore" --- you aren't imagining things.

These are all short little blurbs, but taken together, they add up to a Big Picture.
