

International Public Notice of Our Business Affairs

By Anna Von Reitz

We are a separate American Government, the original and the only one having any jurisdiction on the land and soil; although generous delegations of authority were accorded to our foreign Federal Subcontractors, and even the loan and use of our Title IV flag was granted to the British Territorial United States while exercising our delegated powers on the High Seas and Navigable Inland Waterways, there are no provisions for the British and Papist Subcontractors to undertake the role and responsibility of our Federal Republic, much less any authority granted for them to represent us or latch upon our land and soil jurisdiction assets.

The assets of the land and soil jurisdictions include all aquifers, all subsurface and surface interests attached to the land and soil of our individual States of the Union, all gold and silver and other mineral assets, and all rights and material interests including Land Patents and Descriptions attached thereto.

No Federal Entity of any kind was ever given any authority over any physical assets otherwise belonging to our States of the Union and as of [October 1](#), 2020 all the former Territorial "States" have been enrolled as States of the Union as provided for under The Northwest Ordinance.

Our States of the Union are now in Session and our International and Global Government presenting the mutually shared powers is present --- not being represented by anything or anyone else.

We have chartered The Global Family Bank of International Trade under the auspices of our Government and have also chartered The

Global Family Bank of Commerce. We have also chartered several other banks in pairs to be part of our own Blue Dot Bank System. These banks, like the Federal Subcontractors themselves, exist according to our sovereign rights and responsibilities, treaties, and agreements.

We are in the process of discovery and collection of all our assets; this includes direct discovery and collection of our assets within The United States and Notice has already been served to all those banks in receipt of deposits of our physical assets offshore and in other countries by Vatican and CIA Agents presuming to "act" for us prior to 2008 and the last Settlement Agreement in 2005.

As of this International Public Notice and to avoid any further confusion --- all land and soil assets belonging to this country and its people are to be returned to our unincorporated Federation of States doing business as The United States of America, in care of our Fiduciary, Anna Maria Riezinger.

Notice to Agents is Notice to Principals;
Notice to Principals is Notice to Agents.

Notice served by: Anna Maria Riezinger, Fiduciary
