

## Reply to Bundy Stand-Off : A Century of Abuse

By Anna Von Reitz

Doctor Coffman forgot or doesn't know one particularly vitally important fact: Andrew Jackson paid off the debt that western state land originally secured back in 1804.

There has been no valid debt against our land since 1804 in the western states or any other state. This is an unforeseen affect of the fraud. Though the perps have tried their best to harm us and palm off their debts, they can't have it both ways at the same time.

Can George down the street make you liable for his debts? For example, can he go to the garage and have his car repaired in your name? No?

So why is everyone standing around "accepting the debts" of the Territorial and Municipal United States "as if" the debts of these foreign entities were yours?

Wake up! Here are the magic words: "Non-Assumpsit".

Stop assuming that you owe the debts of the foreign Territorial United States and equally, stop assuming that you owe the debts of the foreign Municipal United States.

These entities which claim to "represent" you --- don't.

They have pretended to be your agents. They've told you that. They've told other people that all around the world the same lie.

But the fact is that they haven't been your representatives since the passage of their very own corporate XVIIIth Amendment. They have had no Fiduciary relationship to you or your states at all for a hundred and fifty years!

And without a Fiduciary capacity, they have no ability to sign contracts, no ability to obligate you in any manner whatsoever. Neither do the municipalities formed under their territorial government auspices.

They got around this fact by deceit---- fraud, in other words.

Here's an example: "Congress" passes an act changing the meaning of "state, States and United States" to mean "the territories and District of Columbia". (13

Stat. 223, 306, ch. 173, sec. 182, June 30, 1864. Bear in mind that at this point in history "Congress" wasn't acting as any Congress related to you or your states of the Union. It was acting as the governing body of the "territories and District of Columbia".

A second similar "redefinition" makes "United States" equivalent to "District of Columbia Municipal Corporation"----- much to the dismay of certain parties in the Philippines who thought they had a contract with the "United States" when in fact all they had was a contract with a defunct corporation.

Don't you all think its time you heard the birds sing again?

Whatever these yahoos have done and whatever they are claiming, they are wrong. They have no jurisdiction related to the Bundys. They have no ability to claim the lands of the western states. All the "western states" have to do is organize their actual land jurisdiction government and accept the federal lands they are owed. So do it.

Follow the steps I have given you. Surrender the "FEDERAL PERSON" named after you, expatriate back to your actual birth right political status, form your county jural assemblies, then your state assembly----- and claim your land back to your own ownership.

It is past time for all of you to get up on your hind legs and learn your own history and operate your own government. Thanks to the Fifty States Claim you still have a home state to go "home" to and a government to operate it.

Dr. Coffman has shed light on the history of the abuse of the western states and their land holdings by the federal government and its agencies--- entities that have at best a proprietorship---- but the whole truth of the matter is that we have allowed this abuse by our failure to operate our own actual state governments.

Most people have forgotten or never known the essentials facts.

Our states are our nations. We are born as Wisconsinites, Minnesotans, Texans, Floridians, and so on. That's why state banks are national banks. That's why we are a union of fifty nation-states, not a nation of fifty-seven "states of states".

We have let the "hired help" run rampant for so long that they have assumed that they are in charge and are the actual beneficial owners. Time to inform them --- and the rest of the world --- otherwise.

The Bundys have begun that noble effort--- and maybe they did it without all the facts firmly in view, including all the lies that have been told about them and about us and about our states --- but in truth.

And the truth shall set you---and the Bundys---- free.
