## **How to Change the Courts**

## **Please Note:**

- 1. The only way these foreign courts can address you is because your own courts aren't in operation.
- 2. The only way they can impose foreign law on you is by misidentifying and impersonating you. See Amendment XI.
- 3. If you are sick of injustice, it is within your ability to organize your State Jural Assembly and put an end to the current trespasses.
