

International Public Notice: Check the History

By Anna Von Reitz

On [April 12th 1861](#), Abraham Lincoln issued an "Executive Declaration" allowing the Northern Forces at Fort Sumter, South Carolina, to fire on Confederate Forces.

He was acting as the President of a corporation doing business as the United States of America, Incorporated, when he did this.

No Declaration of War by any Congress authorized to Declare War on behalf of this country--- as required by all three Federal Constitutions--- was ever issued.

This made the American Civil War into a clear-cut Mercenary Conflict and an illegal as well as unlawful action from Day One.

You may search for a proper Declaration of War for a lifetime; no such action was ever taken and no recourse to The Law of War is possible then or at any time thereafter, because after the hostilities ceased, there was no longer a Congress competent to declare war seated.

Two years later, in the spring of 1863, Abraham Lincoln declared the United States of America, Incorporated, bankrupt. The day before, he had issued General Order 100, the very first Executive Order, and made the Union Army responsible for the fate of our country.

This bankrupt British Territorial Corporation doing business as the United States of America, Incorporated (1863), was replaced by a Scottish Corporation doing business as "The United States of America, Incorporated" in 1868.

This Scottish Corporation doing business as The United States of America, Incorporated, operated from 1868 to 1907 when it was bankrupted and ceased operation.

At this point, the Perpetrators gave up the pretense that they were operating under The Articles of Confederation.

They were and remained "at war" -- that is, commercial "war" with the Municipal Corporation in charge of the Federal Civil Service for another thirty years.

In 1937, these two corporations operating the military and the civil service, respectively, got together and signed The Declaration of Interdependence of the Governments in The United States.

They began colluding in full earnest against their American Employers and began a rampage under color of law and in gross breach of trust, with both corporations setting up redundant services and administrations, so that we have had, for example, the Municipal "DOD" and the Territorial Department of Defense running in tandem this entire time, and been soaked for all the expense of both.

In 1946, these colluding corporations set themselves up to occupy most of the world as "Territorial Forces", and settled in to pillage The United States, the former Commonwealth, most of Europe, Japan, and numerous other parts of Asia, Africa, and the Middle East.

They spent American assets and credit to rebuild the war-torn world after the Second World War, and assigned their War debts and investment costs to the American people; when it came time to pay back the private assets that they borrowed, they welched on it and have been running and evading that necessity since 2005.

The Bretton Woods agreements were "vacated" in 1971, though the "U.S. Military" continued on its rampage of occupying the western world as a Raj-like British Territorial Mercenary Service.

Throughout this period, 1868 to present, the British Territorial Federal Subcontractor has been running a financial theft and embezzlement scam on our shores, based on personage (impersonating living people as "Persons") and barratry (the crime of knowingly bringing charges against these Legal Fiction Entities).

Those in charge of this illegal military occupation have licensed and otherwise controlled many professions that are occupations of common right, and have conscripted doctors, attorneys, dentists, nurses, chiropractors, and others, as "Uniformed Officers" obligated to serve in a "civilian military".

They deployed the Bar Attorneys as "civilian military officers" to open foreign Equity Courts on our shores and use these to illegally confiscate assets belonging to Americans under Pretense of War. They also used Medical Doctors to set up their Personage Scheme by registering American babies as U.S. Citizens, and more recently, used them to inject millions of helpless trusting people with deadly "vaccines".

These two corporations, the modern day equivalents of the Dutch East India Company and the British East India Company, have been operating our military forces as mercenary forces and weaponizing the Federal Civil Service since 1861, and they have all been operated under color of law to the detriment of the entire world.

Read that as many times as you need to.

Now that they are exposed, these quasi-military operations are trying to make themselves look like heroes, and are offering up the Bar Attorneys and Doctors and Police they conscripted and employed to do their Dirty Work as scapegoats.

It is a little known fact that most police officers are members of the Freemasonic Lodges, so when these "White Hats" go after the Freemasons, they are actually going after the domestic police -- one of the few forces that could organize against them.

These corporations and their military operatives should not be allowed to go forward with any blood bath against their former employees, as they are just as guilty--- or more so--- themselves.

Who is more guilty? The man who commits a crime thinking that he is upholding the law, or the man who knowingly voids the law and orders someone else to commit the crime?

It's time for healing and an end to deceit and game playing.

The quasi-military forces still want to control everything and everyone in the name of keeping us "safe" but they have themselves proven to be the most constant source of strife and endangerment we face.

If they are willing to come home and submit to the authority of the actual government of this country, they can be given amnesty. Otherwise they are just a rogue mercenary force on the land and pirates on the sea.

Their promises that "we will be happy" (as genetically lobotomized robots) are not worth words or paper, and all the blood-letting they propose to do against their own employees is just more of the diabolical hypocrisy we are all too familiar with.

They hired and directed these Bar Attorneys to embezzle from us and defraud us in foreign courts. They told everyone that our government was "missing" and that they had to "occupy" our country for our "safety" and then pretended that we were "Enemy Combatants" in a non-existent "war".

They cashiered our assets and used them for their own benefit as collateral backing their debts and used our credit to promote and build all these underground bases and the Secret Space Force, too.

Now they are charging us for destroying all the underground bases our money paid for.

You see how this goes?

First, they fleece us and misappropriate the value of our labor and other assets to build all these underground facilities, then, they destroy all these underground facilities they built using our money, and charge us for that "service", too.

They ordered the doctors, their civilian "Uniformed Officers", to inject us with the Covid 19 "vaccine" and have thus far killed more than a billion people --- and they are blaming the doctors for this, when they licensed and conscripted these doctors and when these "vaccines" were developed under their own auspices.

Because we have been trusting and "asleep" for all these years, they think we are stupid; so it is necessary to tell them that nobody is buying this Hollywood narrative of theirs, making them out to be grand heroes.

They are more like sentries caught sleeping on the job, or, even more apt, caught shaking down whoever happened to pass by.

Nobody should believe this hokum that they are spinning, trying to make themselves look like heroes.

They are not heroes and war is not glorious; war since 1861 is exactly what Smedley Butler said it is: "a racket".

It's long overdue for the illegal U.S. Army Occupation to end and for our American Military Forces to resume their honorable status as a national military service --- not cheap mercenary whores doing the bidding of oil companies and rubber plantation owners.

The civilian population must be set free without further ado. The civilian government must be respected, protected, and assisted. Transparent public elections have to be held. And blood baths to provide "a show of Justice" have to be avoided.

There has already been far too much death and destruction and we have no need for more of what we never wanted in the first place.

Notice to Principals is Notice to Agents, Notice to Agents is Notice to Principals.

We won't tolerate any wholesale haphazard slaughter of doctors, lawyers, or police (Freemasons) and won't pay for any such services.

The idea recently expressed by Pascal Najadi that White Hats are going to sweep through the streets and summarily execute millions of people--- quote: "Bang! Shot in the head." may be the way the White Hats operate, but it's not the way we operate in this country. We are likely to forget who the "White Hats" are, and start shooting the obvious attackers.

Everyone is owed Due Process and nobody is guilty simply because they are a member of a profession that was commandeered and used to commit crimes against humanity under force and color of law.

The U.S. Military acting as a foreign Territorial and Mercenary Force is guilty of illegally occupying this country, guilty of commandeering, misdirecting, and coercively managing all these "civilian military" Uniformed Officers to commit these crimes against us and against our people and our country and our government.

Our eyes are wide open and our backs are up.

It's time for the U.S. Army in all its forms to admit its failings and complicity in these crimes, and ask for amnesty and forgiveness. Also time to get back in its box and stop this "narrative" nonsense.

We know who has been screwing us. We don't need to be told that Uncle Sam didn't really mean anything by patting our bottom and fondling our breasts, oh, in

fact, he had a Grand Plan and was just trying to "draw the criminals out" for another sixty years....

We don't need any tales about JFK surviving the attack in Dallas, or Princess Di surviving the wreck in Paris, either. Just stop.

All these lies are repugnant and below the dignity of grown men. We don't need and we don't want any "show" of Justice. We don't want a "show" of any kind.

We want practical, peaceful, honest action returning our purloined assets and our autonomy. Not some infantile displaced Blame Game leading to more bloodshed and disruption.

Peace is the very least that the Constitutions and basic decency demand.

Give us back our stuff, honor your obligation to protect this country and its people, release and redirect the "civilian military", and clear the way forward without any more drama or violence.

This is what is requested and required of the U.S. Military, including the Space Force.
