

International Public Notice: Nationalization and Criminal Corporate Activities

By Anna Von Reitz

The only real power of a man like Bill Gates or George Soros is the power to spend money. As experience has shown, both these men spend their fortunes on evil purposes. and act as bag men to assist other evil billionaires and corporations to do the same.

They pursue the dreams of madmen. They are both, quite literally, psychopathic and sociopathic, as proven by what they spend their money on.

Gates' most recent evil endeavor has been to force-sell another new food additive "Bovaer" in England, where it will enter the food chain and interfere with male reproductive health.

This, in a country that has suffered population collapse ever since the First World War.

The First World War decimated an entire generation in England. It never recovered from that, before another genocidal "war", World War II, was foisted off on the unsuspecting populace, which again lost a major percentage of its younger population and starved the rest for six years, which was sufficient to guarantee that England's native population never recovered.

Despite that, we have the criminals in Parliament and the Pernicious Royals pushing yet another war and putting all 50,000 members of their military at risk of the same fate that has already claimed 600,000 Ukrainians.

Apparently, the members of Parliament have a short memory. It wasn't so long ago that they lost their young men on the battlefields of the Crimea and later, at

Gallipoli, too, in a mad attempt to dominate a land mass and a culture that is utterly beyond their comprehension.

You would think that their Bug-on-Windshield experiences would have taught them to leave this region of the world in peace, but instead, they have designs on capturing 50% of Africa's food supply and cornering the market on Rare Earth Elements -- and doing it on Russia's back doorstep.

Their obvious (and stated) intent is criminal. Using food to coerce economic and political concessions is criminal. Deliberately scheming to create a monopoly on Rare Earth minerals, or anything else, is criminal. And certainly, the use they made of Ukraine under Mr. Zelensky, their Puppet, as a base for development of biowarfare products and other illicit activities, has been criminal, too.

The ICC finally had to get off its rump and accuse Netanyahu of being what he obviously is --- a genocidal war criminal. When does any court rise up to condemn these corporations that are masquerading as governments? When do we all wake up and deal with the paper monsters we have created?

The fortunes of Bill Gates and George Soros are both made of paper, based entirely on casino chips and intellectual property interests granted to them by the same phony government corporations that have seized control of the bureaucracy.

Yes, these same commercial and banking interests "disappeared" the actual American Government a long time ago, in what passed for a "change of government" putsch in the 1860's.

They got away with that at the time, here and in the British Isles, so they just continued on and expanded their criminal operations unhindered and undetected, worldwide.

Now is the time for this usurpation to end and for the members of the World Economic Forum to be targeted for nationalization and/or liquidation.

These Perpetrators have used our assets and our credit, in collusion with the guilty central and commercial banks that have allowed these criminal enterprises to access our money and our credit and allowed these entities to wage continuous war-for-profit "in our names" without our knowledge or consent.

They all deserve to be charged with crimes against humanity. Their CEOs need to be on a chain gang, not sipping gin in a Boardroom.

The fact that the Ukraine belongs to Ukrainians hasn't quite sunk into their heads yet, because they succeeded in their 2014 CIA-MI6 "government changeover" and gained access to the bureaucratic matrix of the Ukrainian Government. As a result, 600,000 Ukrainians are dead and we have idiots in Parliament advising them to keep fighting until they get to a more favorable position for peace negotiations.

Six feet under is apparently a better position for negotiating peace.

Our point is that all this criminal insanity has to stop. The corrupt justice system has to be redefined and booted up and used for its intended purpose --- to bring these madmen and criminal corporations to justice.

Bill Gates and George Soros are criminals -- the fact that they are wealthy criminals only makes it worse. They have no excuse.

Same thing for the members of the U.S. Congress. They have no excuse for interfering in the operations of an elected national government.

No excuse for plotting to control Africa by controlling Africa's access to food. No excuse for engaging in illegal and immoral monopoly activities. No excuse for outlawed human trafficking, false claims in commerce, and outlawed development of biological warfare weapons. No excuse for practicing personage and barratry against their employers.

People of the world, this is not a board game, but you are allowing these politicians to behave as if your lives and your national resources were poker chips ---- and leaving your future in the hands of crooks and madmen.

We joke about the climate gurus taxing cow farts, but these cretins are deadly serious about it. They can't keep volcanoes from erupting, but by golly, they can keep cows from farting --- by injecting them and their food stuff with dangerous chemicals that impair their natural fertility and the fertility of anyone ingesting beef products.

Imagine your baby boy eating a bowl of Jello and his little testicles shriveling away because Bill Gates and the crazy people at the United Nations were allowed to get away with this?

Reducing methane from cow farts and cow manure is actually part of United Nations long-range planning and goals for 2030. Bill Gates participated in identifying this "problem" and now, he is trotting around the known world, with the solution to the problem he created in the weak minds of the payola challenged people purportedly representing the rest of us at the United Nations --- "Bovaer", a chemical product Gates developed to reduce bovine "air" and also reduce the fertility of the human population of any country that allows this product to be added to livestock feed.

Including England, a place in which the native population has been under severe population collapse for almost a hundred years.

The English, Irish, Scots, and Welsh have all suffered along with their friends and Allies, as a direct result of privateering and other criminal acts pursued "in their names" by foreign commercial corporations masquerading as their own dear government.

These entities that are promoting all this criminality are not governments. They have not been elected by anyone. They have no powers of government not directly and specifically delegated to them, no state immunity, and no excuse for acting as privateers and pirates under international law.

The so-called British Sovereign is not a sovereign; Britain is a business, not a country.

So Letters of Mark and other outmoded and evil and patently unlawful licenses to kill that have been issued by the British Monarchs since the early 1700s are universally fraudulent -- unlawful, illegal, null and void, defunct, having no value and no authority and no ability to protect the numerous incorporated entities that have received these repugnant instructions and acted upon them.

There has been no King or Queen of England since the reign of Queen Anne, who vacated the land and soil jurisdiction, just as "King Charles III" is attempting to vacate the jurisdiction of the sea for his own protection.

All these corporate privateers are engaged in piracy -- inland piracy (on land) and piracy in Maritime jurisdiction (coastal waters) and piracy on the High Seas. Under Admiralty Law, including American Admiralty Law, they and their legal fiction entities are all dead men walking.

It's only a matter of time until everyone reading this and everyone hearing this wakes up and realizes --- they are right. The dimmed down Americans are right. We've all been sold a bill of goods.

Our governments have been left adrift in the hands of private commercial privateers ---nasty industrialists and bankers whose only "law" is to seek profit for themselves--- for the better part of a century and a half.

We've been going to war at the behest of criminals. We have been killing innocent people --- like the situation in Gaza right now --- for the profit of criminals.

And we've all paid the price for this, whether we "won" or "lost".

These banks and other corporations all need to be lawfully converted and nationalized without further adieu and without conflict; it is necessary for the preservation of humanity that this be done and done as swiftly as possible.

We call upon all loyal members of our Military and Civil Service, and all our Treaty Partners, to make it so.
