

## International Public Notice: Information of Criminal Fraud and Trespass

By Anna Von Reitz

It has now been credibly alleged and brought forward and the evidence presented by the Whistleblower/Witness in the video linked below has been evaluated by our people and is now being referred for formal action by Grand Juries in the several States of the Union.

The PCR Tests have been used for purposes of fraud under color of law and used to collect DNA for undisclosed and deliberately obscured purposes including experimentation and commercial exploitation.

This finally explains why these PCR Tests were employed for a purpose never intended by nor advocated by their creator, and which they could not possibly adequately perform. They were used for a different purpose than that advertised to the Public, and that purpose has caused harm that was known prior to the application, but undisclosed to the victims.

This criminal fraud scheme and the institutions responsible for it have the potential of violating the privacy and health of individuals and violating the sanctity of the Human Genome, a crime so heinous and with so many potential abuses that it demands immediate and Draconian action to arrest those persons responsible and shut down the institutions responsible.

We have already spoken to the issue of GMO claims being advanced by DARPA and other patent holders associated with the development of the Corona Virus and mRNA technology. We shall shortly seek action outlawing all mRNA experimentation and product development and distribution. We will seek to make any attack against or illicit modification of the human genome a capital offense under immediate execution orders.
