

# Urgent Information Regarding the Americans -- Dear General

By Anna Von Reitz

Dear General

It was a pleasure to speak with you this morning and reassuring to know that our Armed Forces are still there, doing their duty. Please share this small essay with Rod Class. It will help everyone to understand the context of our situation, and the reason that the Galactics keep telling you to talk to me and get permission from me---- because they know the whole story of what went on here.

Imagine two guys standing on either side of a split rail fence. From your side, all you can see is the other guy and the mountains behind him. From his side, all he can see is you and the lake behind you.

From a larger perspective, it's the same scene, but because of our respective positions within the whole, all we see --- respectively --- is either mountains or lake in the distance.

That is our situation as a country right now. We are all right. We are all wrong. All you see is the Federal Government and the Federated States --- the mountains. And all we see is the American Government and the States of the Union--- the lake.

For you, the U.S. Supreme Court is the Authority. For us, the Supreme Court is a jury of our peers convened in the proper jurisdiction.

For you, the controlling law is the Code of Military Justice, the U.S. Code published in the Federal Register, and the Supreme Law of the Land embodied in The Constitution of the United States of America.

For us, the controlling law is The Ten Commandments, and the only Federal Law that applies to us (only when we are on Federal property or engaged in federally regulated activities) is limited to laws that are published in the Federal Record. While you have been employed by foreign commercial corporations directed by our Subcontractors and have been subject to the private codes and public policies of these corporations as a condition of employment or dependency, we naturally stand under the Public Law --- and enforce the Constitutions, because we are the Landlords.

We are also the Employers of all Federal Employees, both in the Federal Civil Service and Military Services.

We employ the U.S. Supreme Court Justices. We employ the Generals, We are the People.

We are the Principals who hold the other end of the purse string on all the Constitutions.

We are the States of the Union that represent the Union States in international and global jurisdictions of the law. Our unincorporated Federation doing business as The United States of America has represented the States of the Union as a group since 1776.

When operating in this capacity we act as Lawful Persons known as People. But we have another capacity, too. When we act as people with a small "p" we are the owners and operators of the Union States which control the soil jurisdiction of this country, and whether you know it or not, the soil jurisdiction is where we live and breathe. The soil establishes our National jurisdiction, and it is where our nation stands with respect to other nations.

Taken together, acting as people operating the Union States and as People operating the States of the Union, we are the civilian American Government of this country, and there is no other.

We include the Native Americans as part of our populace and include them as a dependent sovereignty having Dual Nationality --- one nationality established by the State of the Union they are born in, and one nationality established by their Tribe.

So they are part of the civilian government that the Armed Forces owe their loyalty and allegiance to, but only account for about 12% of the civilian population we represent, and owing to their Dual Nationality status, they don't have the standing to act as State Citizens unless they give up their Tribal allegiances. My message to the Military and to the Justices of the U.S. Supreme Court is that they better study American Law and Land Law before they go making any decisions about matters that don't concern them, and also before they go giving away property and material interests that aren't theirs in the first place.

And that is why the Galactics keep telling you all to hold your whist and stop the stupidity and listen to me and ask my permission before you go out willy-nilly breaking the law and offending your actual Employers.

Anna Maria Riezinger, Fiduciary  
The United States of America
