

## Dear Mr. Trump: November 29, 2018

By Anna Von Reitz

Dear Mr. Trump,

By exactly what variation of madness is Kim Goguen being allowed to assert control over our assets? We, the American States and People, doing business as The United States of America [Unincorporated] are owed over \$190 Trillion Dollars by the IMF. We own the Philippines land mass. And that is just the beginning of what we are owed. We are sick and tired of the tail attempting to wag the dog.

If you wish to honor your contract with the American People you will know that this debt and all Special Deposit Assets which belong to us and which have been wrongly conveyed into the "U.S. Trust" and/or otherwise claimed by Ms. Goguen and Ms. Hudes are due and payable to the actual States of the Union and their Federation, The United States of America.

We are presenting ourselves and asserting our interest in the Trust Assets and the Special Deposit Assets, whereupon those assets must be disgorged and returned to the rightful owners and trustees.
