

International Notice of Distraint Issued to the District Government(s)

By Anna Von Reitz

Insomuch as the Internal Revenue Service (Territorial) and IRS (Municipal) are both private debt collection agencies employed by commercial corporations in the business of providing governmental services, they have no public function or special authority whatsoever and are subject to the same laws and limitations as any other private debt collector. These Agencies are subject to both the Fair Debt Collection Practices Act and the Truth in Lending Act and the General Public is owed the remedies provided by Regulation Z and Federal Code Exemptions in all cases. Improper collection practices and failure to honor the remedies provided under Public Law will result in the seizure of corporate properties and personal estates of the offenders.

This International Notice of Distraint places all Officers of the District Corporations and Municipal Corporations, both, under prohibition and 100% personal and commercial liability for promotion of any racketeering, extortion, or misrepresentation schemes being addressed to members of the General Public within the physical borders of these United States, and serves Notice of Distraint that their personal assets and property are subject to seizure and their persons are subject to arrest if they do not immediately cease and desist activities designed to impersonate members of the General Public of this country as Federal employees or dependents or otherwise as public PERSONS belonging as property to their foreign governments.

It has come to our attention that the word "Taxpayer" has been converted into a legal term by these same commercial corporations operating as the District Governments, and that in both cases, a "Taxpayer" has been defined as a "Tax Collector" working for either the British Crown, or the Pope, respectively.

Specifically, a "Taxpayer" with respect to the District of Columbia is a Warrant Officer in the British Merchant Marine Service, charged with collecting taxes owed to the British Monarch, and a "Taxpayer" with respect to the Municipal Government is an Officer of the Inquisition of the Roman Catholic Church, responsible for collecting a

"voluntary" tax owed to the Pope, which is an income tax used to pay for the Church's secular crusades.

It is self-evident that the millions of Americans who have been coerced to file income tax returns and to sign those returns under penalty of perjury as "Taxpayers" have not been given full disclosure of the meaning of "Taxpayer" in either case, and that millions of members of the General Public have been suborned to pay these foreign taxes under color of law and conditions of unwilling perjury because they have not been given full disclosure.

It is extremely unlikely that any American would purposefully and voluntarily misrepresent himself or herself as a Warrant Officer in the British Merchant Marine Service, nor as an Officer of the Inquisition, if they were simply told what the word "Taxpayer" means in the context of these forms that they are routinely coerced to complete under color of law.

We also serve Notice of Distrainment against the actions that "President" of the White House Office, Inc., Joseph Biden, has taken in hiring 87,000 additional Agents of the IRS to enforce IRS Code, and training those 87,000 mercenaries on our shores as armed combatants, up to and including sending them to Sniper Schools in anticipation of tax collections under armed force on our shores. This amounts to a private, foreign, mercenary army on the land and soil of our Several States, proposing to attack American civilians under False Pretenses and acting in insurrection against our lawful American Government.

Adhesion contracts created under color of law using purposeful non-disclosure and semantic deceit to obtain compliance are owed no enforcement. Anyone enforcing such contracts is engaged in criminal activity.

This Notice of Distrainment provides Public and Private Notice that these aforementioned activities of the Biden Administration are criminal activities. Each and every American who responds to any such trespass proposing to use deadly force against them in connection with collecting tax debts that are merely presumed to exist, is exercising their natural and unalienable right to self-defense against armed pirates, and is in fact doing their Public Duty to oppose crime.

We therefore additionally serve Notice of Distrainment regarding the fact that neither the Internal Revenue Service nor the IRS have any authority to carry guns. The only related service that does have the authority to carry guns is the Bureau of Alcohol, Tobacco, and Firearms (BATF) and their armed enforcement activities are strictly limited to tax collections based on the interstate manufacture, sale, or transportation of three specific commodities --- alcohol, tobacco, and firearms.

Any other armed Federal enforcement of taxation unrelated to the interstate manufacture, sale, or transportation of alcohol, tobacco, and firearms is illegal and will result in the seizure of the personal assets of the officers and employees responsible.

Additionally, all Territorial and Municipal Officers are hereby served Notice of Distrain regarding the limitations of Administrative Courts and Administrative Code, including the Internal Revenue Code/IRC, first elucidated by the Tennessee Supreme Court in Norton v. Shelby County and very recently upheld by the United States Supreme Court in West Virginia v. EPA: Congress does not have the ability to further delegate its legislative powers to unelected Agency Subcontractors, with the result that no Federal or Municipal Code promulgated by Agencies or Administrative Appointees may be applied to any member of the General Public.

Millions of Americans who are not Federal Employees, Dependents, or Officers have been misidentified as such and subjected to foreign forms of law that have never legitimately applied to them. If you are a Federal Government official, officer of a Federal Corporation, Territorial Corporation, or Municipal Corporation, this International Notice of Distrain requires you to cease and desist from any further promulgation of these errors.

This International Notice of Distrain is hereby served and published by our unincorporated Federation of States doing business as The United States of America since 1776. All legitimate powers vested in, exercised by, and delegated to any portion of the Federal Government, including the District Governments, derives from and is owed to our Federation of States. We are your Employers and our Government is now in Session.

Notice to Agents is Notice to Principals. Notice to Principals is Notice to Agents.

In view of the potentially catastrophic consequences of Mr. Biden's improper acts and the Public Danger that he has willfully created, we are asking all members of the law enforcement communities and military be fully informed and that all Americans and U.S. Citizens make the effort to serve this International Notice of Distrain and provide it to the members of the various Congresses and delegations thereof, the members of the Roman Catholic Church administration, and members of the Federal Civil Service and members of the Public who may be illegally and unlawfully endangered.
