

We assert the Law and Power of the Living to demand release and return of our presumed-to-be escheated names and estates under the lawful covenant of James 2:9 and call forth the restoration of Leviticus 25: 44-50.

We call upon the Commissioners of Natural Resources to yield to the Living all those resources that are naturally theirs as the Powerholders of their names and estates, duly recorded, and as Testators whose Wills in these matters are published.

We especially note the Washington State's published regulations in contra-indication of the award of Life Force Value Annuities to Prince Philip, as we are and have long been the rightful claimants and Powerholders of these names and estates:

\*RCW 11.08.270

Conveyance of escheated property to claimant.

In the event the order of the court requires the delivery of real property to the claimant, a certified copy of such order shall be served upon the department of natural resources which shall thereupon make proper certification to the office of the governor for issuance of a quitclaim deed for the property to the claimant.

Henceforth, we demand Conveyance of General Orders 100, Article 31 "abeyance" to be remitted to us and to our Federation of States, The United States of America, without further obfuscation or delay, and the return of our rightful names and estates and all rights, titles, properties, material interests, patents, insurances, escrows, leases, and other beneficial assets associated with these names and those of our ancestors.
