

# Make Sure Every Politician, Military Officer and Scientist in America Gets a Copy

By Anna Von Reitz

I am reposting this information for everyone to be aware of and take action on. The 320 million mice in this country are invited to a Grand Feast on the Elephant -- the one that is rampaging around our living room:

(Repeat: I don't have a proper name for the Author and I don't have permission to name the Author; so, I am simply reposting it in the Public Interest for Fair Use and Educational Purposes and hope that you will make swift use of the information it presents.)

**THIS CAN BE STOPPED PEOPLE!! STOP YOUR COLLABORATION!! Bio-electromagnetic Weapons: Weaponized 5G Pulsating Microwaves Caught in the Act While We Are ALL Sleeping! THE CRIME CAUGHT ON NEXRAD**  
The militarization and weaponization of 4 G & 5G technology poses a serious threat to our well-being, and it is time for the naysayers to understand the gravity of the situation.

As we delve into the implications of this new information, I encourage everyone to seriously consider these facts and take action to protect themselves, your loved ones and your communities from the dangers of pulsating 4G & 5G microwave radiation. It is crucial that we all come together to demand transparency, accountability, and the prioritization of public health over corporate interests. The time for complacency is over; we must act now to safeguard our future and the future of our children.

From [April 16-18, 2024](#) NEXRAD captured intense (video at top of post), pulsed microwave radiation blanketing the entire US, ramping up nightly.

These 750 kW pulses from 159 NEXRAD towers and 160 Doppler stations emit 2.7-2.9 GHz microwave frequencies are disturbingly close to those of a microwave oven. And they're hitting us for 12-14 hours straight each night while we sleep.

Why Is This Alarming?

A growing body of research links chronic low-level microwave exposure to various health issues. It can negatively effect endocrine function, disrupting sleep and circadian rhythms. EEG studies show it alters brain activity and electrical signaling. Animal studies suggest it impairs immunity, alters heart function, and even causes misfolding of peptides - a known factor in neurodegenerative diseases like Alzheimer's, Parkinson's, and Creutzfeldt-Jakob (the human form of mad cow disease)!

Study [PMC7309322](#): Could Microwave Irradiation Cause Misfolding of Peptides?
