

## Urgent and Much-Needed Explanation for My German Friends

### By Anna Von Reitz

As we are busy unravelling our own twisted history, we are trying our best to help other people around the world unravel and better understand their own twisted history.

The root of the evil all leads back to the "Holy Roman Empire" and to the wordsmiths employed by the Pope to promote it and fund it --- attorneys, whose life work seems to be promotion of confusion, deceit, and criminality.

Members of the Voltaire Society have long labored to expose these evils, which go hand in hand like the personage and barratry by which they prosper.

Now, today, one of my German-Austrian Facebook Friends turned up this gem, which is the most succinct and explicit explanation of what went on in Germany during the same time period when we were suffering the aftermath of the American Civil War ---- and how Bismark pulled the same kind of substitution-deceit on the German People as Queen Victoria and Disraeli pulled on the Brits, and which Lincoln pulled on the Americans.

This is a brilliant and brief explanation of how "the \Reich" insinuated itself as a sea-going jurisdiction government and supplanted the actual government of Germany.

It's the German variation of what happened in England and America at roughly the same time, and it proves beyond a doubt that Wilhelm I and thereby also Wilhelm II were not Kings of Prussia, and were not legitimate Emperors, either.

This reduces World War I and World War II to just more filthy, private, mercenary squabbles between evil members of evil families, all seeking to profit themselves from the death and misery of others, and from fraud committed against the General Public.

This is, unfortunately for my English readers, presented in German --- but it is straightforward and easy to translate. I urge you all to take a few minutes to copy down the text and translate to English. I would welcome a competent translation to post. (My German is sufficient to let me read this and get the gist of it, but I would not be able to claim an exact translation.)
