

International Public Notice: The Confusion About Federation v Confederation

By Anna Von Reitz

The original Union State known as "Wisconsin" or "wisconsin" (using Latin style conventions) occupies the national soil jurisdiction within its physical boundaries. This is the State Map created by all the outlined Counties joined together like a patchwork quilt.

These Union States then have "confederate States" that occupy the underlying land jurisdiction, known as "States of the Union" ---meaning "States belonging to the Union". This is the State Map that shows no Counties, just solid color within the State boundaries and major water features. (This is because the State of the Union controls the international land and sea jurisdictions, so a map of it represents the uncharted subsoil and major surface water features.)

The Union State (soil) plus the accompanying State of the Union (land and water) taken together represent the national soil jurisdiction of the State plus the international land and water jurisdiction of the State, and since 1851, both these States are simply called, "Wisconsin".

As a result, when we talk about the Union State, we have to designate that and know that we are talking about soil jurisdiction. Otherwise, it is presumed that we are talking about the State of the Union, which, as it operates in international jurisdiction, is the "face" of Wisconsin that interacts with the world at large, both on land and sea.

From the standpoint of the Union State (Wisconsin) the State of the Union (also called Wisconsin) is a "Confederate State", but this is not the only pairing that results in this State-Confederate State relationship.

There is another iteration of this pairing that is much better known.

What happens when a State of the Union creates a Confederate State for itself, in order to project into and operate in the jurisdiction of the air? The result is a "state of state" as defined under Universal Commercial Code.

So, the State of the Union known as Wisconsin operating in international jurisdictions of land and sea, created a partner for itself to operate in the global jurisdiction of the air, another "Confederate State" known as The State of Wisconsin. This is the State Map that shows nothing but the outline of the State and major water features, dotted with named cities and towns.

As you can see, "Wisconsin" whether we are talking about the Union State or the State of the Union, is always and forever a "State".

In the same way, "The State of Wisconsin" and any Territorial or Municipal "State of Wisconsin" remains a "state of state". "States of States" are incorporated commercial business entities serving a body politic.

Our original States of States are meant to serve our business enterprises, our counties, our towns, and villages, which serve American nationals living in each State.

Their British Territorial States of States serve their incorporated Cities, which serve U.S. Citizens.

Their Municipal STATES OF STATES serve their incorporated Municipalities, which serve citizens of the United States.

This is because many nations can occupy the same space, and the circumstance results because these foreign incorporated entities were allowed to proliferate on our shores without opposition or competition from the mothballed American State of State.

The foreign federal citizens living among us just usurped, came in, set up a corporation, hung up their shingle, and settled in. In the absence of our mothballed State of State organizations, they had a free hand and did not respect the obligations of the Residence Act.

And as you can see, it's just a question of what these entities are "confederate" with respect to.

The State of the Union is a confederate State paired with its corresponding Union State. In this way, the international jurisdiction of the land and sea (State

of the Union) is connected to (and anchored back to) the national jurisdiction of the soil (Union State).

The State of State is a confederate State paired with the corresponding State of the Union. In this way, the global jurisdiction of the air --- and the realm of commerce, which is business between two incorporated entities --- is connected to the international jurisdictions of land and sea held by a State of the Union.

(You will note that the jurisdiction of the air can be reached via either the land or the sea jurisdiction, resulting in Commerce and Maritime Commerce, both.)

Any Territorial State of State doing business as "the State of Wisconsin" is paired with the Municipal "STATE OF WISCONSIN" which serves as its "confederate state".

These pairings of States with their Confederate States line up like pairs of books on a bookshelf:

Union State plus State of the Union
State of the Union plus State of State
State of State plus Territorial State of State
Territorial State of State plus Municipal STATE OF STATE

In terms of jurisdictions this connects everything as follows:

National Soil plus International Land and Sea
International Land and Sea plus Air (Commerce)
Air (Commerce) plus Territorial Jurisdiction (Cities)
Territorial Jurisdiction (Cities) plus Municipal (Municipalities)

What happened in the aftermath of the Civil War is that The State of Wisconsin, the natural "confederate state" meant to be paired with the State of the Union known as Wisconsin, was mothballed in a State Trust created by our British Territorial Employees.

The State of the Union known as Wisconsin **thus lost control of its commercial functions on land and sea.**

The British Territorial Usurpers then cleverly substituted their own British Territorial "State of Wisconsin" for ours, and partnered with a Municipal "STATE OF WISCONSIN" as their "confederate state" -- which gives them a means to operate under Treaty in Admiralty and via deceit in Maritime Commerce, while impersonating us the whole time.

The resources of The State of Wisconsin are still locked away in "the Wisconsin State" (Trust).

Both the Union State known as Wisconsin and the State of the Union known as Wisconsin still exist and still function more or less on autopilot. The rest of the government structure has been usurped by our foreign Federal Subcontractors, and they have been using the assets of The State of Wisconsin cashiered in the Wisconsin State (Trust) as collateral for them to borrow against and invest.

To expedite this self-serving fraud they have misrepresented themselves as our Trustees and "representatives" and assumed positions and roles never granted to them. Students of actual Law will recognize this: they have presumed to act as Executors de Son Tort, and have no actual lawful or legal right to represent us, even though they attempt to assert a legal right based on unconscionable contracts foisted off on newborn babies and voter registration contracts that are never fully disclosed.

Of course, this is all fraud and malfeasance, breach of trust and breach of service contract on the part of the British Monarchs and the Roman Pontiffs and the Lord Mayors of London (Westminster).

Now that you know how state and confederate state pairings work and can see precisely which relationship (connection) was severed in the fog after the so-called American Civil War, you can appreciate the dilemma we find ourselves in.

Our Union States and States of the Union are still intact; we can still conduct international trade on land and sea, we can still conduct commerce on land --- and except for the illegal State Trust being imposed on the assets of The State of Wisconsin we would have full run of our Maritime Commerce as well.

We are demanding the liquidation of the State Trusts associated with us individually and collectively --- and the return of those assets to us, individually, and to our State Assemblies. We are demanding an end to the immoral foreign contracting processes that have been used to entrap and enslave Americans in their own country.

This is an international crime of the highest order, which has been foisted off on us and many other countries, by the same set of Perpetrators --- the Brits and the Romans and the denizens of Westminster, which have run an unimaginably large con game based on False Claims, impersonation, barratry, and identity

theft of entire nations, right down to the level of the British Crown Corp stealing copyrights to individual Given Names.

As you can now better appreciate, the "location" of the crime scene in terms of jurisdictions is primarily contained in the jurisdiction of Maritime Commerce.

It is the Maritime Commercial Banks and British Territorial "National Bank" Associations (their "nation" isn't American) that are fundamentally at fault and they are also the institutions garnering the unjust enrichment that results from impersonating Americans and doing such things as foisting off their own mortgages and taxes on the uncomprehending victims.

None of this has anything to do with any actual war. It has been engendered, implemented, and enforced via commercial mercenary conflicts which have been misrepresented as "wars" to the public.

These illegal and immoral operations conducted by maritime courts and maritime commercial banks under color of war, has resulted in our country being occupied by what appears to be our own military --- but that, too, has been commandeered by the commercial interests responsible for this entire debacle of lawlessness and injustice.

We are here to tell you with no equivocation that our national military hasn't been in the field since the War of 1812, which ended in 1814.

Every conflict since then has been a disguised Mercenary Conflict and it has been fought by men and women who were unknowingly press-ganged (drafted on land) or voluntarily --- (to the extent that an act depending on undisclosed identities and circumstance can be voluntary) -- inducted as commercial mercenaries engaged in foreign wars for profit under the direction of the British Crown.

It's time for this to end and for the phony "corporate governments" and their banks and their leaders and their corporations to pay the price. They know this and now you know it.

Donald Trump and Company are trying to "fence" the situation and moderate the damage instead of adopting the burnt Earth policies of the Biden Administration, which has been substantially controlled by Chinese creditors ---who have unknowingly been making False Claims against our substance, when we are the Priority Creditors of the same Miscreants they have sued.

Any glimmer of sanity is appreciated.

However, the awakening conscience of the mercenaries so far as shoving their Vatican compatriots under the bus goes, should not be taken as any guarantee of good behavior on the part of the British Territorial Corporations that are now trying to present themselves as heroes after 160 years of consistently failing their duty to this country and even their homeland nations as well.

The QFS "Financial System" which they propose is nothing more or less than a Draconian compliance system that is wide open to political targeting and manipulation down to the level of individuals. Just as the present coercive banking system can "debank" corporations, they will be able to "debank" individual people as well, and interfere with your natural, unalienable right and ability to trade commodities and exchange labor.

As a replacement for either the Federal Reserve System or the International Monetary Fund System, the QFS is--- almost unbelievably, worse. QFS is more oppressive and coercive, less transparent, more subject to bureaucratic meddling, more arbitrary and more globalist in all respects, as it aims at nothing less than planetary financial control and enslavement.

The Sales Pitch being given for the QFS is that it will prevent money laundering and identity theft and save money now spent on preventing counterfeiting of cash --- at the cost of enslaving and surveilling the entire world population and leaving us all utterly dependent upon the good graces of men who have been operating as and within criminal enterprises for generations.

QFS was developed under a CIA program code named "Crimson Gate" --- Crimson as in Red China and Communism in general. The same rogue elements of the CIA that worked for "Marduk" are responsible for the whole scheme and the Black Ops that have given the scheme feet to stand on --- and garnered support from the Usual Suspects --- Black Rock, Vanguard, and State Street.

That synopsis should give every QFS Cheerleader more than a moment of pause. The ephemeral nature of digital currencies -- even far more ephemeral than Federal Reserve Notes and bogus "Money of Account" -- should also be sufficient reason for everyone to sober up.

We need a transitional system that will serve current needs and allow us to go forward without looping us back into the control and manipulation of the Same Old Monsters.

If we are to thrive and survive, mankind must raise itself beyond trusting ignorance and clean up Maritime Commerce once and for all. We can't leave that duty to the same men who created and profited themselves from this Mess, although it does demand a degree of commonality and cooperation to avoid a total meltdown of the financial systems.

What we have now, is a détente based on mutually assured (financial) destruction and with the launch of Russian supersonic kinetic ICBMs last week, a new playing field. We are grateful for Mr. Putin's cool-headed restraint in the midst of the Ukrainian fight and we recognize the desperate and ill-founded attempts of the District of Columbia, Inc., to spend another \$24 Billion of our credit on an immoral proxy war against our Russian Allies for the travesty it is.

Our country and the Russian Motherland have been at peace and allied since 1858; this historic American-Russian Alliance has stood for 166 years, through two World Wars and innumerable lesser Mercenary Conflicts. We don't intend that our Hired Help is going to violate our accords with Russia in pursuit of their own economic benefit, and the banks involved in extending our credit to these Vermin are fully accountable and liable for their acts in contravention of our expressed and explicit Will in these matters.

Russia is our Ally and has proven to be a far more reliable friend to us and to mankind than England and Rome have ever been. If the Cretins responsible had any respect for life, they would respect the lives of over a million Ukrainians lost in this senseless, selfish, immoral and illegal struggle, which has been predicated on and caused by a puppet regime that was violently installed by CIA and NATO operatives in 2014.

Shame and condemnation on both the CIA and NATO; we would all be better off without them.

We also recognize the concurrent evil crime that is the self-engendered attack on the helpless civilian population of Gaza. British Agents not only created Hamas, they paid Hamas for the attack in Gaza October 7th 2024. Once again, the Brits are at the bottom of the dogpile, with certain Khazarian Fake Jews egging them on.

It is convenient that Mr. Netanyahu announces a cease-fire just in time for Donald Trump to boot up the so-called "GESARA" initiative being promoted by the incorporated military interests that are trying to not only save their own tails, but wheedle things around to gain even more wealth and more control over the Earth, it's resources, and the civilian populations.

Part of the requirement to participate in this giveaway of our joint inheritance, is that a country must be at peace.

Mr. Netanyahu only wants to be at peace so that he can get his share of this illegal giveaway. Expect him to get right back at it once his coffers are full, because for him and men like him, the death of 200,000 unarmed civilians, the destruction of 36 hospitals with the patients and doctors in them, and the homelessness of over a million Lebanese people is never "enough".

These Vermin don't know when to stop, and that will ultimately be their undoing.

Let it be fully and freely and absolutely known that the actual American Government doesn't support any of these expenditures on these criminal activities in Lebanon, Gaza and the Ukraine, does not acquiesce to the use of our Title IV Flag to promote any such activities, and is determined to bring an end to the continued illegal quasi-military occupation of our country.

We hope that this settles any ongoing question about us and what has happened to our country at the hands of these False Friends; we trust that we have expressed our Will and detailed the circumstance with sufficient force and provided enough information so that anyone who is motivated to do so, can retrace the history for themselves.

Our Federation of States of the Nation (a Confederacy from the standpoint of the Union States) and our member States are in Session. We are not deceived and we are not happy about the activities of the foreign government personnel that have been acting in Gross Breach of Trust and violation of their Service Contracts and who have attempted to sell out our people and our resources, while promoting wars for profit and other heinous acts under our Title IV Flag.

It's not the Americans doing this. It's the British Territorials.
