

International Public Notice: The Final Straw for the CIA

By Anna Von Reitz

John F. Kennedy vowed to make an end of the disgusting corporate atrocity known as the CIA --- just before he was betrayed by the Secret Service and assassinated.

Now we find out that the CIA has been practicing and pushing the Blackmail Cult to the NSA and other "security" agencies--- and finding plenty of soul-less converts.

We are erecting a hundred thousand different kinds of protection around President Trump and Elon Musk and everyone connected with the Department of Government Efficiency tonight, as they found and released the contents of an NSA secret chat room that NSA employees used to discuss their own sexual practices and fetishes and perversions of all kinds.

It's like a dark web chat room for monsters, only these are public employees in positions that require substantial security clearances and public trust.

This is damning for the NSA and obviously this needs to be stopped; these people need to be fired for abusing their positions of trust and using national security apparatus for such illicit purposes, but this is not the first time that a gang of perverts have insinuated themselves into positions of trust and violated any and all ethical constraints.

The Great-Granddaddy of these sorts of scandals, the Chief Perpetrator and Source, is the CIA, which has long been misdirected and has become a "raging cesspool" in the international intelligence community. They not only push the Blackmail Cult on other intelligence organizations, they bully them and deliberately seek to "compromise" agents in other security organizations like the

FBI and NSA to garner a network of spies and fall guys and flunkies throughout the other agencies.

It's past time that we honored JFK's wishes --- and put an end to the CIA and the United States Government, Inc. --- the corporation that owns and runs it, along with a long list of other agencies and departments.

The whole shebang needs to be nationalized.

The CIA during the development of the Blackmail Cult and Legalized Lying policy has been controlled by an umbrella organization calling itself the United States Government, Inc.

We suggest that all officers and board members of the United States Government, Inc. be arrested immediately and charged with blackmail, murder, conspiracy, treason, and all other attendant crimes.

The head of the snake, as always, is somewhat separate from the snake. It requires its own special treatment and removal.

After the leaders of the Cult and the Board of Directors responsible for misdirecting the CIA have been eliminated, we suggest that all CIA offices worldwide be shut down and all computers and records confiscated, all related bank accounts frozen, with all senior agents arrested at the same time, investigated, and held on a prison ship on the High Seas, until trials can be held.

We ask that the Navy leaves the CIA prison ship isolated under distant escorts and external navigation.

Nowadays we can do our spying by satellite and far-seeing.

The remaining agents can be fired, not eligible for rehire, after a thorough investigation of their activities and debriefing subject to lifetime surveillance

We need to get rid of the CIA on a permanent basis. That requires not only physical removal of the leaders and principal officers, but a thorough and public discrediting of the agency, so that they no longer enjoy the trust and respect of any of the other security and intelligence organizations.

They need to go, and though Kennedy dreamed of tearing them apart and dispersing them to the four winds, we do not consider this to be prudent. They represent and have provided a potent domestic threat, as proven by the Frankfurt

CIA Office's involvement in the 2020 Presidential election in The United States, and the CIA's more general involvement in recruiting drug cartel assets in Central America and South America, training them, arming them, and deploying them throughout The United States as live Terrorist cells.

The purpose of this was not only to guarantee continued access to the American market for illegal drugs--- and the flood of Black Ops money provided by fentanyl, heroin, and designer drugs--- but to use these cells for mercenary attacks in collaboration with forces already staged in "Free Trade Zones" to take out transportation hubs, stage railway disasters, set fire to oil refineries, disable pipelines, carry out on the ground arson attacks, assassinations of political figureheads, deploy bioweapon attacks like bird flu and bovine anthrax to destroy agricultural targets, attacks on food and agricultural storage and preservation facilities, and all sorts of other criminal acts, designed to impair American food sources, energy sources, and transportation, increase inflation, destabilize supply chains, and demoralize the American people.

Even if the CIA was misdirected and ordered to do these things, and more --- such as lying bare-faced to Congressional Hearings -- these men and women knew that they were engaging in crimes and that these crimes were aimed at the American people.

It's time for them to go.

The problems uncovered at NSA are sickening, but we have found the same problems and worse in other security and intelligence organizations worldwide as a result of infiltration, influence, and bullying by members of the CIA. The Blackmail Cult, for example, has spread to China where the CIA ran the China Development Fund (think USAID on steroids) and to Italy where the CIA ran security for European enclaves.

It's fair to say that the Blackmail Cult has come full-circle, from its roots in Southern Italy and the Roman Empire after circling the entire Earth with its signature immorality and violence. The CIA has not only fallen victim to this criminality, it has victimized and corrupted other security organizations around the world.

We don't need criminals working for us. We need good, solid, morally and ethically consistent men and women who have more on their minds and more worthy goals than orgies and sex tapes and illegal commercial activities. The downfall and misdirection of the CIA started with Allen Dulles--- straight out of

the box; this misdirection has continued and worsened with each successive administration regardless of the political party in power.

The United States Government, Incorporated, the umbrella corporation that owns and operates the CIA and a long list of other agencies and commissions and departments including the Department of Justice, has been run by senior bureaucrats, politicians, and industrial tycoons since the 1930's. This unelected, unknown, unaccountable corporation has repeatedly misdirected and abused the power vested in a long list of other federal agencies including the FBI and BLM ---- while the majority of Americans are left completely uninformed and unaware of this renegade corporation.

Today is the day when this portion of the spider's web begins to disintegrate and the cockroaches begin to run. Federal employment in America may not be a privilege, but it is still an honor and a trust that has been grotesquely violated by public employees both in the field and in administrative capacities.

The Purge compelled by the bankruptcy of the UNITED STATES Corporation has to happen anyway; between two-thirds and three-fourths of all current Federal employees have to be encouraged to leave, furloughed, early-retired, or fired. Some need to be fired, not eligible for rehire.

Let's accept the circumstance as an opportunity to remove the scum and not just the field agents of immoral tyranny--- the men who have been misdirecting these agencies also need to exit stage left, with or without criminal charges, with or without their pensions intact.
