

International Public Notice: Fire Alarm

By Anna Von Reitz

Yes, all Hell is about to break loose --- unless we arrest the criminals and keep our heads and hearts together.

Most recent statistics show that 40 million Americans can't pay their bills, but these statistics don't begin to reveal the actual state of affairs, because these statistics are tracking the impact of inflation on people on fixed incomes, people working minimum wage jobs, and people who were "low income, but making it" just a few months ago before the Fed began cranking up its hyperinflation machine.

Those are the "new" impoverished who are seeking help for the first time from food banks and churches and philanthropic NGOs and "government" programs.

This Fire Alarm does not count the long-term unemployed (substantially unemployed for three years or more), the alienated (such as those living on "Indian Reservations") and the generationally impoverished (like those living in Appalachia who have been poor for a hundred years or more).

If you look at real poverty in America, the number is more like one quarter of all Americans below the poverty line and struggling to survive. Right now.

There are also many other strange cracks appearing in the facade of the corporate "government".

Why, you may ask, is the DOD, that is, the Municipal United States Department of Defense paying for school lunches? (Hint: Occupying forces are required to provide food, water, and shelter to the civilian populace.)

Why are all these people being imported from South America, China, and the Middle East, and being injected with the mRNA poison as a condition of being here?

They stagger across the border, accrue a tremendous amount of "book value" by being redefined as "Americans" and within seven years, statistically, they will be dead.

All their purported American estates will be up for grabs -- at least that's what the Perps who are planning on profiting from all the death and misery are counting on, along with charging everyone here for all the medical care for the dead and dying, all the disabled and maimed.

Let the arrests begin.

Let the lawsuits against the Congress, Inc. begin, along with the lawsuits now possible against the vaccine producers who no longer have any cover from calling something that was never a "vaccine" by that name.

We'll vaccinate them all, right in the wallet.

And the lawyers and judges will help us do it, because their families have been decimated, too.
