

Situation Update -- Fire in the Hole

By Anna Von Reitz

So now we know what the Plotters were trying to do, using former US military personnel to do it.

As everyone reading the information from me has cause to know, ESTATES operated as Cestui Que Vie Trusts were established in all our names under false pretenses. These Municipal STRAWMAN trusts were operated out of Puerto Rico without our knowledge or consent.

The British Territorial Government and the US Military kept control of these Municipal TRUSTS via their Admiralty Court System --- the only Article III Court the Plotters left in operation after the Second World War.

So, Mr. Obummer and Company decided to roll up the carpet in 2015 and "liquidate" the Municipal Government Corporation doing business as the UNITED STATES, INC. ---- and take all our ESTATE trusts with it.

This then opened up the opportunity for a worldwide melee as people from all over Kingdom Come flooded in trying to claim the American States and the American People's names and most especially, trying to claim our land holdings.

But they were foiled because none of them had standing to do it. They had forgotten what "the law of the land" really means. They had forgotten that only Lawful People can own actual assets and Lawful Money.

So they can claim to be the Settlers of our ESTATES and our States of the Union, but unless they have the actual standing to do so, they can never prevail.

So, those of you who have had the good common horse sense to see the logic of what I have been telling you, and who have acted in Good Faith upon it to reclaim your birthright political status --- you and your State Assemblies are the Lawful and Rightful Inheritors and Settlers of the United States Trust, our States, and your own ESTATE----and nobody else can claim otherwise.

We have filed a Specific Performance Arbitration in United States District Court to compel the return of our public and private property assets. We-- our State Assemblies, our Lawful Persons known as "the People"-- are the only ones left who have the provenance, standing, and lawful right to do this for all Americans, to stand up for our States and our Country, and our Natural and Unalienable Rights.

It is through us, strangely enough, that the peace ending The American Civil War can be finally declared and joy can come back into the world--- we few Americans who have awakened and walked forward together to restore the rightful government of the people, for the people, and by the people.

We have arrived now at a crucial time with many initiatives forthcoming, and a huge amount of work to do. Please support this by sharing the information with friends and family members, support it with your prayers and your will, support it with your studying and your understanding, support it with donations if you can. We have a great many bills and expenses coming at us now including travel expenses that really eat up the bucks.

If we are to resolve this and bring it to a peaceful conclusion for everyone, we must make these efforts, travel the miles, and bring forward the court actions. Nobody --- as I pointed out above --- can do this for us. Only we can take the steps to free ourselves and reclaim our birthright. Only we can make the difference.
