

For Jocelyn About Bcs

By Anna Von Reitz

I am getting a lot of questions about names on BC's, and various interpretations being offered for why some Birth Certificates are in Upper and Lower Case and why some are in ALL CAPS and what this all means.

Our Proper Names in English consist of our Christian Given Names for example: "James Maxwell" and a Surname or Family Name, for example, "Pierce". The whole then is: "James Maxwell Pierce". This is how all names appeared on public documents from the 1920's when Birth Certificates started in this country until November of 1999 when the bankruptcy of the United States of America, Incorporated, ended, and they could no longer use those names to accrue debt against. They were discharged as franchises of the bankrupt parent corporation as part of the bankruptcy settlement, which is what led to the Queen dubbing them, "disregarded entities" from then on.

So then they started issuing BC's in the ALL CAPS NAME and accruing debt against these "new" franchises in the form: JAMES MICHAEL PIERCE. These are ACCOUNT NAMES in DOG LATIN and are not any proper address for you; they are technically mail fraud and attempted racketeering actionable under Public Law 73-241 and 73-243.

As "disregarded entities" our Proper Names are now absolutely and unarguably free for us to reclaim and they can't say or do anything about it, which is why we return these names to the land and soil of the States as a first step to literally reclaim our "Good Names and Estates".

There are two foreign governments dipping into your lives and your purses via this scheme --- one of them is the British Territorial United States Government, which falsely claims you are a Territorial Citizen as if you were born in Puerto Rico, and the other is the Municipal United States Government which pretends that you were born in the District of Columbia and are subject to the Congressional Oligarchy.

Now, thanks to Obummer's deceit and the bankruptcies of both these Federal entities, you are receiving your bills addressed to: MICHAEL M. PIERCE, which is the name of a bankrupt Puerto Rican Public Transmitting Utility franchise, and isn't even a legal name for lack of specificity. In fact, you can protest any billing you receive based on this fact all by itself.

Exactly which MICHAEL M. PIERCE was that?

And the BCs are all in ALL CAPS for the reason explained above.

This is all bogus and all criminal and is being mis-applied to Americans to profit foreign privately owned corporations.

The members of the "Congressional Delegations" should be getting their ears and their tails burned black and held to account for all this chicanery in Breach of Trust, and the military, too.
