

## International Public Notice: For All State-of-State Governors

By Anna Von Reitz

The truth of the matter is in your faces and begins the template of every Executive Order you receive. Let's give you a recent example:

"Now, therefore, I, Joseph R. Biden, President of the United States of America by virtue of the authority vested in me by the Constitution of the United States...."

1. From 1776 to 1851, the phrase "the United States" meant the Union States formed of individual counties joined together to make states holding the National soil jurisdiction, and then further organized as a Union of these states.
2. From 1776 and onward it has also referred to the Holy Roman Empire (now Roman Municipal) Federal Subcontractor operating under The Constitution of the United States.
3. In 1851, to honor the fact that English is our official language and to reduce the confusion caused by having our Union States and the HRE Federal Contractor operating under the same name, the Union States have been known as The United States and the Municipal Federal Subcontractor has been known as the United States.
4. Now know that "the United States of America" is a separate British Territorial entity and another Federal Subcontractor with its own Constitution, The Constitution of the United States of America.

5. Now examine the template above used in every Executive Order and ask yourselves what is going on here?

Any and all power vested in the President of the United States of America is vested under The Constitution of the United States of America, not the Constitution of the United States --- a completely separate contract granted to a different Federal Subcontractor.

6. This is like saying, by the Power vested in me, the President of General Motors, Incorporated, by the contract issued to Ford Motor Company, Incorporated.... and it makes absolutely no sense. It's gobbledygook.

7. You have to understand which "United States of America" is being referenced --- and it's not the British Territorial United States Subcontractor in receipt of The Constitution of the United States of America in 1789, but instead, a corporation calling itself "the United States of America--- Incorporated" which went bankrupt in 1933 and was literally purchased by a consortium of billionaires -- the Robber Barons who were still alive in 1933, J.D. Rockefeller, the Warburgs, and other proponents of the "Federal Reserve" who were the principal creditors.

8. Joe Biden is the "President" of this Corporation, merely calling itself "the United States of America"--- Incorporated, still owned and operated by these same billionaires, and it is under contract to the Municipal United States Government in receipt of The Constitution of the United States.

9. Now and only now, does Biden's EO verbiage make deceitful sense. If he were the actual President of the United States of America, he would be functioning under The Constitution of the United States of America and he would have no need or recourse to borrow any authority from The Constitution of the United States.

10. As "President" of a deceitfully named, foreign, for-profit corporation in the business of providing "essential government services" on behalf of the Municipal United States, the EO template makes perfect sense.

11. Let's make this perfectly clear -- The Constitution of the United States does not now and never did vest any authority in the President of the United States of America, meaning the actual Office created under The Constitution of the United States of America (1789).

12. Let's also make it plain and clear that the power vested in The Constitution of the United States cannot be delegated away to be performed by a Subcontractor in the same way that Congress cannot give away its legislative powers, but must bear that responsibility alone.

13. It should now be apparent that the Municipal Government operated by the Holy See has been hiring this private, for-profit, deceptively named Corporation calling itself "the United States of America"--- Incorporated, to do its bidding, and has been foisting this off on the American Public as a legitimate application of its delegated powers.

14. If we had intended to establish a Constitution with an incorporated entity, we would have said so and spelled it out as "the United States of America, Incorporated" when we established the Constitutional Contract. This incorporated version of "United States of America" is not a party to The Constitution of the United States of America and its President has no legitimate power derived from The Constitution of the United States of America.

15. Instead, Joe Biden is calling himself the "President" of this incorporated imposter (the USA, Inc.) and seeking to glean authority from the Municipal United States Government and its contract, The Constitution of the United States, which is fraud and violation of both Constitutions.

16. This is a real problem for the entire world, not just this country, as it allows the Popes acting as Roman Pontiffs to contract with these venal private fraud artists and pump huge money into this storefront, the USA, Inc., and use it and it's President --- in this case, Joe Biden, to do dirty work "in the name of the United States of America".

17. Biden is just a pool boy for the Vatican, working for a group of nasty billionaires dba "the United States of America, Inc."

18. Joe Biden is not the President of the United States of America that we gave a Constitutional Contract to; that's why he has to try to borrow ill-gotten and unauthorized power from The Constitution of the United States instead.

19. This is a gross self-interested breach of trust and deceitful fraud, a commingling and misrepresentation of powers against the intent and interest of the American People, who are left to untangle this morass of money and corruption and phony identities.
