

Full Alert!

By Anna Von Reitz

Doctors and nurses are being used as conscripted Uniformed Officers to kill Americans.

This is allowed by Federal Code 37.

Those who are licensed are being both threatened with the loss of their license to practice medicine and being offered tremendous financial rewards both at the personal level and at the hospital level to go along with this genocide program.

Your immune system is being undermined and your food supply is being polluted.

Wake up!

When the normal flu season hits the results of all this will be obvious, but the perpetrators will scream all the louder to promote more genocide against Americans and Europeans.

We must stop this or billions of innocent people worldwide will die. The madmen in charge of this must be identified and arrested and executed in public, to put an end to this and all similar plots forevermore.

It's time. Spread the word. Tell your doctors and other health care professionals that this is going on. Bring them up to speed, so that they are given a fair chance to learn the facts and protect themselves and everyone else from this.
