

Fundamentals --- Read This First

The Way Power is Supposed to Flow in America:

Land Government

People

Townships/Parishes

Counties [Jackson County]

States [Wisconsin State]

Continental Congress

Federal Government (Sea Government)

United States Congress/Congress of the United States of America

President

[United States Supreme Court]

Departments and Agencies

States of [State of Wisconsin]

STATES OF.... [STATE OF WISCONSIN]

Counties of.... [County of Jackson]

COUNTIES OF.... [COUNTY OF JACKSON]

Townships of.... [Township of Adams]

TOWNSHIPS OF.... [TOWNSHIP OF ADAMS]

MUNICIPALITIES OF....

Citizens

CITIZENS

At every step the power vested DECREASES.....

Who Is Who and What Is What?

The People = The Militia

The word “people” is Hebrew. It means “militia”. **All power** is vested in the people, that is, **the militia** organized in defense of our country.

The Townships and Parishes

The people form their local government based on where they live and own land. They **assemble** their **town (as in “township”) councils and hold “town hall” meetings.**

The Counties on the Land [For example: Maricopa County]

The counties are comprised of townships and parishes organized within the county’s physical boundaries, thus each county represents a number of townships/parishes.

The States on the Land [For example: California State]

Similarly states are comprised of all the counties organized within the physical boundaries of the state. Each state in these United States is a separate **sovereign nation.**

The Federal Government

The Federal Government is both a corporation organized to provide nineteen enumerated governmental services and an association of the States organized to direct and oversee the delivery of those services. **It is not and has never been a sovereign nation or government.**

At each level the amount of power vested in the government is REDUCED. The Federal Government has the LEAST amount of power.

One the land of these United States, the people hold all the power and merely delegate tasks to public employees. The people are all State Nationals: Arkansans, Vermonters, Texans and so on. They occasionally send their Deputies as Delegates to a Continental Congress.

This is all separate from and not to be confused with the Government operating in the international jurisdiction of the Sea.

The Sea Government = International (Federal) Government

The government operating in the international jurisdiction of the sea goes in REVERSE

order with power flowing from the **TOP DOWN**. It is inhabited by “**citizens**”, not “**people**”.

Citizens serve the government. People are served by government.

President – acts as CEO of the federal corporation(s)

Congress – acts as Board of Directors

United States Supreme Court – acts as the ultimate in-house corporate tribunal and interprets **The Constitution – The Supreme Law of the Land** for the public employees working in the international jurisdiction of the sea.

United States of America, Inc. – one of the main federal government corporations organized to provide services to the states and people via franchises it calls federated “States”, for example, “State of California” and federated counties, for example, “County of Maricopa”.

UNITED STATES, INC. – another federal government corporation organized to provide services to federal employees and dependents, that is, “citizens”. This also uses franchises called “STATES”, for example, “STATE OF CALIFORNIA” and counties, “COUNTY OF MARICOPA”.

Any time you see **the word “of”** or see **anything named via the use of all capital letters** you know you are dealing with an incorporated franchise operating in the international jurisdiction of the sea.

California State = Land Jurisdiction/Law of the Land, “State of California” = Sea Jurisdiction/Law of the Sea, “STATE OF CALIFORNIA” and “CALIFORNIA” = Sea Jurisdiction/Law of the Sea.

Maricopa County = Land Jurisdiction/Law of the Land. “County of Maricopa” = Sea Jurisdiction/Law of the Sea. “COUNTY of MARICOPA” and “MARICOPA” = Sea Jurisdiction/Law of the Sea.

“California State” is the actual state on the land owed to the people.

“State of California” provides the “people” of California State with nineteen enumerated federal services owed to them under contract.

“STATE OF CALIFORNIA” provides “citizens”--- that is, public employees and officials and dependents of the federal government with administrative services and benefits.

Two kinds of “citizens” ---- United States Citizens and “citizens of the United States”; JOHN QUINCY DOE is a United States Citizen and JOHN Q. DOE is a citizen of the UNITED STATES, both franchises of federal corporations merely named after john quincy of the House Doe.
