

## To The Galactic Council -- November 15th 2023

By Anna Von Reitz

For the past fifteen years, the members of the Galactic Council have plunked around and pretended that you didn't have a clear reading and direction with regard to the future of this species and planet; you have delayed and went back and forth, forth and back, about mankind's nature and Will.

There are those who have always stood for life and love, who have patiently borne all the violence, theft, and evil of the Snakes.

It is time for those beings allied to life and love to emerge triumphant and upheld, safe, and ready for a new world.

It is time to simply invoke the removal of Satan and his children, as evidenced by their acts, words, and deeds.

It's also important to recognize that those who were deceived into accepting snake venom-producing DNA without consciously being aware of it, are to be held harmless.

There is no excuse for including these victims in the punishments, as they have not willingly and knowingly participated in these offenses.

As Senior Field Commander I have asked the Andromedan and Sirian Peacekeeping Forces to intervene and secure those foreign individuals responsible for these acts against Nature and Nature's God.

Let them all be subject to the Universal Law and the law of their respective Star Systems, now and forevermore.

I AM and I require that the snakes and their allies be immediately arrested and prevented from doing any more harm.

I AM and I require that they be turned over to their respective interstellar police forces.

I AM and I require the immediate return of all assets and credit owed to the people of this planet.
