

International Public Notice: Pre-Planned Genocide Underway

By Anna Von Reitz

For the watching, but uninformed world, thousands of people are dead in the States impacted by Hurricane Helene. You are not hearing this from the worthless Mainstream Media, but it is the truth.

It's too early to throw numbers around, but it is absolutely safe to say that many thousands have already died and more thousands are dying as a result of lack of water, food, shelter, infected wounds, and dysentery.

It is also the truth that instead of helping, former "Federal Agencies" now being funded by the U.S. Congress -- which is complicit and made an accessory to these crimes -- are deliberately obstructing relief efforts

It is also the truth that --- and even Artificial Intelligence has this figured out --- this hurricane was deliberately manufactured using cloud-seeding and then "steered" far inland and held over the targeted area.

The ability to steer the Jet Stream has been commonplace since the Vietnam Era, when it was manipulated to mess with the Monsoon. Anyone who isn't up to date, only needs to pull up and read the ENMOD Treaties. Or lookee here:

Today, the technology has become much more exact and in this case was done using land-based tower systems that give off a characteristic "popcorn" signal imprint when used in this manner.

This imprint is present at stations all along the East Coast, running straight and deep into the Appalachian Mountains where some of the poorest people in this country live.

This is not the kind of Directed Energy Weapon damage we saw in Paradise, California or Maui, but it is a different variety of DEW, one that uses Mother Nature against herself.

So, once again, our country and our people have been attacked by commercial mercenaries and nothing is being done about it. Instead, the British Territorial U.S. Congress voted to give their Holy Roman Co-Conspirators another three months' worth of funding, instead of cutting the cake.

The Longshoreman's Dock Strike has been kicked down the road another three months, too.

Another three months to let the Vermin play havoc and ruin on this country and its people and leave us paying the bill. Another three months of criminal agencies swaggering around. Another three months of False Political Propaganda and Phony "Elections".

Why? Payola. Both "sides" are intent on last minute electioneering and spending hundreds of millions of dollars on their bunko.

They want the appearance of Donald J. Trump winning by a landslide, even though -- outside the venue of a foreign corporation, both the election and the office are as common and as meaningless as being CEO of XYZ Corporation.

If these cretins were sincere in caring about this country, none of this would be happening.

A word to the local Sheriffs --- don't just "threaten" to arrest FEMA workers interfering in rescue efforts. Do it. They have no jurisdiction in your counties. It's your neck and your responsibility and your non- bonded and uninsured rumps on the line.

FEMA personnel are insurance adjusters trying to reduce the compensation debt of their employers. That's what Artificial Intelligence concluded in this current circumstance, and that is what I concluded in 1996.

To repost the interesting facts:

Questioner: Hey Alexa, did the government use cloud seeding for Hurricane Helene? Yes, the U.S. government did use cloud seeding during Hurricane Helene?

Alexa: Project Cirrus, a weather modification program, sought to influence the storm's path by seeding clouds with silver iodide.

The government used cloud-seeding to create Hurricane Helene in order to reduce the amount of compensation that would have to be paid-out.

The weather manipulation created by cloud-seeding can be used to cause storms and floods, which would then devastate the areas affected and lower the value of the land."

So recognize the misdirected but aptly-named Vermin for what they are. They aren't even trained to provide actual on the ground assistance. They "manage" financial aspects of disasters.

They don't save lives. That's not their business.

Feel free to arrest FEMA personnel and do whatever is necessary.

We are declaring FEMA and any other Federal Employees who don't diligently and immediately provide all aid and assistance possible to victims of Hurricane Helene as Enemies of the State and we are hereby telling the Joint Chiefs to put an end to the theatrics:

- (1) Cancel the corporation elections until fully disclosed elections can be arranged.
- (2) Cut the communications and financial access of FEMA. Send their personnel home. Lock the gates behind them.
- (3) Shut down all biowarfare activities.
- (4) Shift personnel and resources to support the local people engaged in search and rescue and defend them from any interference foreign or domestic -- at gunpoint, if necessary.
- (5) Mobilize resources to provide drinking water and food and shelter and medical care and airlift support out of the impacted area.
- (6) Shut down the phony Harris-Biden Administration right now and stop giving us this crap about "flushing out" the Vermin; we know who the Vermin are ---both by their fruits and in your case, lack of fruits.

There is more than one way to flush out rats, and you are all in the cross-hairs of this investigation.
