

International Public Notice: Getting It

By Anna Von Reitz

The Brits began their deception in 1707 with their Act of Union. Great Britain isn't a country, it's a company. The UNITED KINGDOM is a Municipal Corporation. There is no such thing as a multi-state Monarch, for example, "The Queen of England, Ireland, Scotland, and Wales", by definition. It's all fraud.

The "Wars" were not wars -- they were all commercial mercenary conflicts and actual land forces were not engaged.

The land jurisdiction of all four realms --England, Scotland, Ireland, and Wales-- has been vacated for over a century

There are no proper declarations of war, no possibility of any Law of War. All of this is illegal. Fraudulent. The banks went along with it, and issued fiat "debt notes" but they are now caught between the crosshairs, too.

In order to run their constructive fraud against the interests of the people and in evasion of their own Constitutional obligations, they had to create a different form of currency, use a different system of law, and a different system of banking.

All this they palmed off on the unsuspecting world.

Now, when they are caught again, they are trying to do the same thing with the "Quantum Financial System" and their tokenized digital coinage, blah, blah, blah. Another shell game. More sleight of hand. They will try to pass off an ecclesiastical court system, too, in the name of "court reform" once people grasp the fantastically huge Breach of Trust that has been committed against them by the Bar Attorneys and the associated courts.

Observe what Frederick the Great of Prussia was doing with The Seven Years War? He was holding onto his power as a Monarch against mercenaries. Observe what Emperor Wilhelm II did in WWI? He stepped out of his office as the King of Prussia and into the office of "Emperor" --- an air jurisdiction office. He left his Son, the Crown Prince, as Heir to the Throne of the Kingdom of Prussia, so that it would not be vacant. King Charles III is trying to pull the same maneuver right now.

Similarly named companies and corporations have been masquerading as the actual governments of all these countries for all these years, and now, the cat is out of the bag.

They have no authority. Everything they have done and built has been based on lies and fraud and mistaken identities and substituted offices.

We've all been taking orders from Ronald McDonald. And not even getting a paycheck from the restaurant.

People have obeyed orders in good faith, coming from "persons" with no actual authority to say pfft. Men have put on meaningless uniforms and killed and been killed, rendering every life taken in these "wars" as a murder, including the collateral damage deaths. Every house ruined, every business lost, is a commercial damage claim owed by companies and corporations in the business of providing "essential government services".

This has all been done to us by our public servants. And it is still being done to us by our public servants.

The current fire damage in Los Angeles is due to the neglect and incompetence of "Governor" Newsom and his Administration, "smart meters" provided by weaponized public utilities, helped along by corporations run by the UN CORP, e.g., SERCO and SASCO. These are all criminal and intentional damages that need to be charged back to those responsible, directly. The Perpetrators are all 100% personally and commercially liable.

We have organized and set up our land jurisdiction commercial courts for the first time in over a hundred years and we are addressing all the phony charges they have made against us and against our property interests. We have set up our bank

system in the proper jurisdiction and issued our new asset-backed currency and invoked our own public law.

We have identified the British Government(s) as crime organizations and the Bar Associations (worldwide) as crime organizations and the courts they run as crime organizations -- all operating under coercive monopoly inducement.

All the people throughout the British Isles have suffered a Bait and Switch Fraud in which they were offered one kind of government -- a Constitutional Monarchy -- and provided with a territorial oligarchy instead; the same thing happened in this country. We were promised a "republican form of government" which was subverted into a democracy.

Everywhere you look, you see the same filthy paw prints: business and commercial interests paying off public servants to act against the public interest.

"Kings" and "Queens" who haven't actually acted as kings or queens.
Bait and Switch Presidents.

Militaries acting as mercenaries and using the population they are supposed to protect as guinea pigs for illegal biowarfare programs: <https://www.youtube.com/watch?v=j1qgGOJnKfM>

Attorneys, who aren't required to know the actual Law, acting as lawyers.

Banks cashiering and securitizing physical assets and issuing I.O.U.s based on other people's purloined assets.

Religions practicing human trafficking, enslavement, and peonage.

Doctors and nurses killing people with injections of recalled drugs and experimental gunk:

Borders left unprotected from infiltrators and smugglers, in direct contravention of contractual obligations owed by Successors to Contract.

Babies being trafficked into foreign political statuses by Medical Doctors acting as Undeclared Foreign Agents and weaponized as "Uniformed Officers" of foreign governmental services corporations.

Arson fires triggered by "Smart Meters" destroying thousands of homes in California:

https://forbiddennews.substack.com/p/satellite-view-of-la-fires-shows?publication_id=1658626&post_id=154737187&r=16feb&triedRedirect=true

All of this harm is being funded and pushed using our own assets and credit against us, long after the guilty banks have been fully informed of the national level identity theft and fraud, and long after we have reported the crime.

It's time for the colluding banks to be liquidated, and the guilty bankers arrested and prosecuted.

None of this gross usurpation and breach of trust could have been done without crooked, colluding banks illegally cashing our assets in off-ledger accounts and issuing our credit to pay for all this "public service".

Given what we now know, we highly recommend that everyone remove their assets from the banks and the stock market. What else you do with them is up to you, but investments in your food, fuel, shelter, water, medical and other immediate or likely short term future needs is sensible.

We hope that you will realize the importance of restoring the law of the land and soil, the importance of having courts designed for people, banking services designed for people, and forms of currency designed for people -- and that you will support our efforts as the only American Government still standing for the living people on the land and soil of this country.

We hope you understand that the "U.S. Government" and "Government of the United States" have been run by two European Subcontractors and that they and the foreign interests they represent are the ones responsible for the fraud, piracy, unlawful conversion, and other crimes committed against us and that these interests are also responsible for the genocides and illegal warfare and other crimes that have been committed against innocent people worldwide "in our names".

We hope you understand, as we do, that our military service members were lied to and deluded and acted on false information they were deliberately fed by these monsters in suits. We hope that you understand that the members of our military were never told that they were acting as mercenaries. They didn't know that and they certainly weren't paid as mercenaries.

Just like they didn't know that the same monsters were testing Agent Orange on their farm fields back home, dumping neurotoxins in our water, and using our country as a pirate base.

None of us knew, though we all saw bits and pieces of it, here and there.

Now that we do know, we have stood up and taken steps to end it, and so must each and every one of those reading this Notice tonight. This is not a uniquely American problem. Corporate crime and lack of accountability has become a problem for the whole world.

Notice to Agents is Notice to Principals; Notice to Principals is Notice to Agents.
