

## International Public Notice: Good-bye, Finally, to John McCain

By Anna Von Reitz

Finally, official confirmation of what we have known for many years -- that Congress, through various backdoors, was funding the very "Terrorist" organizations they were using as front-groups to conduct mercenary and intelligence operations in the Middle East.

Much of this illegal, unlawful, and immoral activity was promoted by "the Dirty Dozen" in the Municipal Congress -- the same group that fronted the "independent international city-state" of the Municipality of Washington, DC, and used it as a foreign civilian government squatting on our shores to conduct privateering operations against our government and our people while spending our money and enjoying our unearned hospitality.

The happily deceased Senator John McCain, who was not a war hero, but rather a wartime collaborator and spy, was the kingpin and ringleader for the development of a parade of Middle Eastern Terrorist organizations including Al-Qaeda, the Taliban, and ISIS.

We have photos of McCain kissing Yassir Arafat before anyone knew Yassir Arafat existed.

McCain also knew all about and funded the activities of one Osama bin Laden, who was a primary CIA operative in the Mideast. He didn't, by the way, meet his end at the hands of Seal Team Six, even though Seal Team Six took responsibility for it --- and was paid back by the CIA accordingly.

Just as the CIA and Dirty Dozen members of Congress funded all these storefront Terrorist organizations, their British counterparts at MI6 also get into the act and fund their very own Terrorist organizations, most notably, Hamas.

We saw the visits of numerous British diplomats and officers to the region six weeks prior to the attack on October 7th, and correctly deduced that a "deal" was going down in which MI6 funded a False Flag style attack on Gaza.

This leaves Donald Trump's hands clean to come in and play his title role as the Carrot to all the other Sticks. It wasn't "our" Terrorists who did the dirty work prelude to the carpet bombing of Gaza.

It was the British Boyz, as usual, at the bottom of that dogpile --- but it should not be implied that "the US" was guiltless (for once) until the actual money sources are sorted out.

It's possible, but unlikely, that the British Labour Party Government paid its own Butcher's Bill with Hamas. They specialize in having someone else to pay for absolutely everything. We would not be surprised to find Keir Starmer's dental floss charged off to American Taxpayers, so we suspect that the ultimate Money Trail will lead back to sources in The United States --- sources that are most likely associated with Nancy Pelosi and other high-ranking Dirty Dozen members, like Chuck Schumer.

Before his death, McCain paid forward the expenses of his faithful storefront organizations in the Middle East and also made sure they had enough "free" military-grade equipment to fight WWII all by themselves. No Gog or Magog required.

This will inevitably come out as Elon Musk's data tracker programs eat their way through the DOD Budget like a virus.

We will finally know where some of the trillions of dollars-worth of USD went; it may be small satisfaction, but at least, we will know how much it

cost us to fund the "enemies" that we were purportedly fighting against the last thirty years.

We should not be surprised; the bankers always fund both sides of every conflict. And insure themselves against loss at public expense.

McCain's publicity plans and dodges will finally be put to rest along with his most ambitious long-range plans to establish puppet governments throughout the Middle East, and use them in the final round, to surround and marginalize Saudi Arabia.

All of that meticulously planned violence will never happen now.
