

September 19th 2025, Friday, The Goons Arrive

By Anna Von Reitz

I called the Governor's Office and was told that the completely illegal "eviction" from an imaginary Borough and imaginary, unknown city was "a local issue, not a State issue".

Oh, yeah, Mr. Governor Dunleavy?

What do you call these Squad Cars with STATE OF ALASKA plastered all over them? Now, which "STATE OF ALASKA" is that?

Dunleavy admitted that it wasn't his State of Alaska right there and then, didn't he?

And it sure as hell isn't our State, Alaska.

So who are these thugs? This "other" STATE OF ALASKA"?

It's the Municipal Government that shouldn't even be in Alaska, but which the Territorial Government allowed to be here according to both The Constitution of the United States and The Constitution of the United States of America.

Go figure.

We told both the Territorial Employees and the Municipal Employees that the Municipal Employees were to keep all their administrative functions inside the District of Columbia.

And what did the Territorial Employees do? Made up a State Trust "for" us and a Commercial Corporation named after us and called it a (Territorial) State without telling anyone.

Oh, and then, they opened up their Corporation named after our State and let their filthy Municipal Corporation brethren waltz right in.

And the ugly criminals managing the State Trust "for" us HIRED these Municipal GOONS to evict us from our houses which they claim that Territorial State Trust owns.

Dunleavy's "State" hired the Municipal "STATE" to "manage the State Trust Property" for the "State" Trust—— but it's not his problem when things go terribly wrong and the people they are holding all this "trust" land for, show up and demand — as the purported "Donors" —and collapse any public trust interest related to them and their land.

According to Dunleavy's "State" all this land belongs to "missing, presumed dead" British Merchant Mariners with names like this, "Riezinger, Anna M."

But we all know that story, don't we?

We have the proof via all those Birth Certificates of how it went down.

They hate it when you call them, "Mr. President" and "Mr. Governor" because that tells them that you know who they actually are and who they work for.

But the truth shall set you free.

I will be taking several different pathways to dislodge these brigands and restore the State we are supposed to have — the actual State, not a British Swindle or a secondary Municipal Con Game.

These actions save your State, too. All of you benefit from my contracts.
Your houses and lives will finally be secure from "lawfare" and

So— I will need your help. I will share lots of photos to show you what I am talking about. Meantime, we need to gather a "war chest" for the legal battles and travel costs ahead.

That is the worst case scenario and we have to be ready for that.

The best case scenario is that all the crooked crazy "public trust" crap goes away in the next two weeks and all these criminal foreign Commercial and Municipal Corporations are forfeited back to actually serve the living people.

So, I could have my house back by the end of the month or might have to fight for it until around Christmas— but keep in mind, when I win, whatever way I win, you all win, too.

Those who have gone through this and had your homes stolen under False Pretenses will either get your homes back free and clear plus money for any damages or three times their market value.

Will be doing Granna Bytes and daily reports.

Today all I got done was to show some bank officials how these crooked banks are siphoning off money by delaying transfers.

And I recorded my criminal complaint against the individual "STATE TROOPERS" who were operating under color of law.

Tomorrow is another day....

Granna
