

Granna Note:

By Anna Von Reitz

Granna has one love in her life now --- herself. No need to get all the Maytag Men of a "certain age" terribly excited. No, they are not the American substitutes for Yummy Plumbers.

Also note that Granna stayed with her husband, Jim, loyally to the end of his life, and that was made possible because he was able to explain how twinned soul energy works ---- and even the details of how females can carry the masculine energy within that relationship.

He was even able to explain the existence of unique electrical field signatures generated by living people, and how, in nature, only two people in the world share the same energetic signature.

Surprise, surprise, surprise.

Just because the Earth Energy Conduit opens up beneath your feet doesn't mean you have to fall into bed with a stranger --- or be ignorantly unprepared, either.

You can maintain your dignity and honor even if your mind and heart, your marriage and your religious beliefs, get blown apart.

That's what the Gubmint had slated for millions of you in 2026.

Jim clocked Operation Cherubim Horizon during the Dubya Administration. We just now pulled all the patents and ended the ability of the Vermin to profit themselves while playing mayhem.

Also pulled their ridiculous 1917 media gag orders.
