

# International Public Notice: Regarding The Hague Conventions and "Restored Republic"

By Anna Von Reitz

Since we commented upon SG Anon's testimony, we've heard back from numerous people putting their faith in the RuSA organization now being promoted as the "Restored Republic" because Tim Turner processed claims with the Hague back in 2010.

The Hague Conventions apply to actual military operations and military applications of The Law of War and The Law of Peace, legitimate occupations by Armed Forces, and Peacekeeping assignments that legitimate Armed Forces may undertake, by providing a framework and guidance for such military operations that has been internationally agreed upon.

Wonderful.

What do the Hague Conventions have to do with an illegal and misrepresented commercial mercenary "occupation" of our country?

Nothing, except the potential for deceit and misrepresentation of the facts surrounding the so-called American Civil War and everything since then.

The American Civil War wasn't a "war". It was a Commercial Mercenary Conflict.

The American Civil War wasn't ever declared by any Congress. It was never settled by any public peace process. It was fought by states-of-states defined under commercial code.

The American Civil War has nothing to do with the Hague Conventions, and the continued illegal occupation of our country by foreign commercial forces ever since that initial fraud, doesn't either.

So Tim Turner can go to the Hague and dance all he likes, it simply doesn't apply to the situation we have here.

As galling and unjust as the situation is for all concerned, the facts remain. Our own military was unlawfully converted into a mercenary service by Abraham Lincoln and has existed as a mercenary service ever since. Our military has been abused by foreign interests and we have been abused in the process.

The leaders of the U.S. "Military" have been put in a severe bind, as they have been implementing an illegal occupation of our country while under contract to protect our persons and provide us with "good faith" service. They are stuck admitting to having committed a gross crime against their own people and their loyal employers, because they have been snookered along with the rest of us. This is why it is so painful and dangerous for them to admit their mistake, and why we have offered them amnesty for doing so.

Second bone to pick:

There was never a British Territorial Republic. There was an American Federal Republic.

British Territorial U.S. Citizens can no more "restore" our vanished Federal Republic than they can "restore" a nationalist government in China. Only the Chinese can do that.

And only we, properly declared, recorded, and published State Assembly members can restore the American Federal Republic --- which is the only Federal Republic that has ever existed.

So the idea that the U.S. Citizens or citizens of the United States, employees of foreign corporations who have adopted foreign citizenship obligations as a condition of employment, can "restore" our Republic for us, is: (1) grossly mistaken, or (2) purposefully deceitful.

They never had a British Territorial Republic to begin with, so they have nothing to "restore", and they can't restore our Federal Republic for us, so this whole idea that they are restoring anything is just pure bunk.

In our expert opinion, the narrative about "restoring the Republic" is yet another attempted British Territorial Cuckoo Bird Substitution Scheme, where they hope to sneak in the back door and pretend to be us and substitute their version of a "federal republic" for ours.

Just as they substituted their state-of-state organizations for ours after the Civil War.

Just as they substituted their corporation's "President" for ours.

Just as they misrepresented their British Crown Corporation doing business as "The United States of America" --- Incorporated, and used it to substitute for our unincorporated Federation of States, The United States of America.

We could go on.

Tim Turner may have had the best intentions. So far as we know, his White Hat Military handlers may have had the best intentions, too, but until they wake up and face reality, including the reality of their own negligence and misdeeds, they will remain the victims of their own delusions.

All the induction paperwork they have ever signed when accepting tours of duty failed to disclose the nature of the contract and failed to disclose the full impact that signing the contract would have on them and on their political status and the nature of their work.

They were never told that "enlisting" would change their political status to that of a U.S. Citizen --- as if they had been born in Puerto Rico. They were never told that they were signing up as mercenaries. They were never told that a "tour of duty" is a form of indentured servitude and peonage benefiting foreign powers.

If they want to "restore America" the quickest way to do so, is to restore our Armed Forces to honorable, non-mercenary status-- and recoup their own status as honorable soldiers and sailors.

They can safely shove the claims of the corporations straight up the corporation's made-of-paper rumps, because those corporations are engaged in crimes against humanity, because those corporations have failed to disclose their contracts, because those corporations are paying debts (I.O.U.s) with more debts (more I.O.U.s)

It's time for "our" Commander-in-Chief to act as our Commander-in-Chief and not as a lackey of the British Monarch, because even though the United States of America, LLC, may be a British corporation and even though Donald Trump may be "President" of it, he is acting as a Successor to Contract under The Constitution of the United States of America, and he owes his "good faith service" to us.

Notice to Agents is Notice to their Principals; Notice to Principals is Notice to their Agents.
