

## Helpful Forms 2

By Anna Von Reitz

We have discovered and confirmed (thanks largely to Kurtis Kallenbach) an outrageous and long-standing ploy that has been used by the Roman Catholic Church to establish claims to our DNA and as a result, improper claims of ownership interest in our bodies.

To counteract that, we have set up another Public Form called a Paramount Claim which settles the "interest" in our DNA.

I know, everyone is groaning --- not another form to add to the list!---- but this one is important as it appears to be the basis that the vermin use to lay hold of our bodies and incarcerate us, as well as a foundation to the claims of the Municipal Government to "own" us.

Please see example attached: <http://annavonreitz.com/dnaclaim.pdf>

If people don't know the exact details of when and where their parents were "wedded" ---- that information can be bypassed.
