

International Public Notice: This Is What They Do to Hide Their Crimes

By Anna Von Reitz

We see tonight that instead of accepting the inevitable reckoning that is due for their financial crime, the usual Suspects are "at it" again, rattling sabers and moving troops--- mercenary troops--- and making plans to start World War III against both China and Russia.

And they plan to charge the cost of this in blood and in assets and credit to you.

Yes, these people claiming to be your "representatives" are planning to charge you for the "service" of starting World War III, so they can make money on war-for-profit and keep your attention focused away from their financial crimes against you.

They have done it twice before.

World War I covered the phony bankruptcy of the Scottish Commercial Corporation doing business as "The United States of America, Incorporated".

World War II covered the phony bankruptcies of the Delaware Corporation doing business as "the United States of America, Incorporated" and "E Pluribus Unum the United States of America" and half a dozen others.

They think you are all stupid enough to fall for it a third time. They

think that their joint corporate bankruptcies can be shoved under the rug and the American people will just take it in the crotch a third time.

Their propaganda mills are already ginned up and running in Britain and in Germany, but remember--- those "governments" are actually just franchises of the U.S. Inc. and also remember that those countries are occupied by unwitting mercenaries employed by the U.S., Inc.

And remember that any such war is illegal by definition and is not covered under their contracts, which clearly stipulate that their role is defensive only and applies only to this country.

The days of them engaging in war-for-profit all over the world and sending the bill for it to us, are over and done.

Please show your support for your Fiduciary in loudly informing NATO that not only will we not pay them for any such "service", we will instead charge them one (1) Trillion USD for every American maimed or killed, and will charge them for all equipment lost or damaged, all supplies and personnel expense --- will all get charged back to them and their enterprises.

They won't make any money. In fact, they will be deeper in the hole because of it, if they start WWIII.

We will also refuse their draft and their illegal conscription processes and their false claims of contract.

Stick that message up the nearest Congressman's butt and see how fast they flinch.

Also remind them and the United States Secretary of State that we have a Treaty with Russia that must be honored, the American-Russian Alliance of 1858, which neither we nor the Russians have ever breached.

If our Employees, or the banks backing them, think that they are going to breach our treaties in our names and charge us for the honor, they had better stick their heads in a toilet and flush, flush, flush until that notion is completely washed away.
