

International Public Notice: Thank You, Hindustan Times

By Anna Von Reitz

Now, pause a moment and ask yourselves why Americans and Brits and Aussies and most of Western Europe and the Middle East are dependent on the Hindustan Times for news and competent political commentary from American experts like Jeffrey Sachs, who, among other things, has exposed NATO's role in the post-World War II epoch and the lies told by the U.S. Government to Americans and Russians everyone else.

He also explains, succinctly, the role of Netanyahu's Government in promoting both Iraq Wars --- in its own self-interest, of course.

Take the time to listen to this address by Jeffrey Sachs:

We can answer Jeffrey Sach's question about the lack of any discernible European policy since the Second World War, and why Europe lost its voice.

It's very simple. Both World Wars have been illegal Mercenary Conflicts, and Europe remains under illegal occupation by the Allies, who have been using franchise corporations of the U.S.A. Corporation and UNITED STATES Corporation to substitute for the actual national governments of these countries.

They have had a "policy" --- involuntary submission and support for whatever "the U.S." says, because their governmental services, currencies, legislatures, defense, and identities have been taken over by franchises of the UNITED STATES Corporation and franchises of the U.S.A. Corporation, both.

The now-bankrupted UNITED STATES Corporation controlled all the civil services for FRANCE, INC., GERMANY, INC., ITALY, INC. THE NETHERLANDS, INC., the UNITED KINGDOM, INC., and twelve more

formerly independent European countries--- these were all Municipal Corporation franchises of the UNITED STATES Corporation and these organizations have provided all the civil services in all these countries since WWII.

These corporations (very quietly) took over the pre-existing government bureaucracies and seized upon their assets; people on the street thought their own governments had returned, but in fact, their governments and their countries have been secretly occupied and controlled, just as the British Raj occupied India.

The U.S.A. Corporation has controlled France, Inc., Germany, Inc., Italy, Inc., The Netherlands, Inc., United Kingdom, Inc., etc., as franchises, and has provided all the defense services.

We, the American victims of these same entities, are paying for 96% of all European defense costs and the cost of over 950 military bases worldwide. This is why "the Americans" are always at war.

But, it's not the Americans in control of this or doing this to Europe. It's the British Territorial "United States" engineering all this -- and the British Crown, specifically.

In this video replay, Jeffrey Sachs says, "The Americans learned everything from the British...."

No, Jeffrey Sachs, the Americans are being controlled by certain British and European business interests, using what was once our own honorable military as a foreign mercenary occupation force----illegally, fraudulently, just as the Raj occupied India, secretly, surreptitiously, creeping in through the backdoor and using the bureaucratic apparatus of the existing government to take over the national governments under color of law.

Remember, we are also under illegal occupation by mercenary forces that appear to be our own military; our military was unlawfully converted into a mercenary force by Abraham Lincoln. It has been under the de facto control of mostly European business interests, and has been working for them, not us, ever since.

Europe is still under illegal "territorial" occupation by colluding homegrown corporation franchises --- the only difference between these franchises and their relationship with these US Parent Corporations and Vichy France's relationship with the Nazis, is what? Nothing at all, really.

The difference between the British Raj and India (the actual country) and the United States of America, Incorporated and The United States (the actual country)? Nothing at all.

FRANCE was a Municipal Corporation franchise of the UNITED STATES. France, Inc., is a Commercial Services franchise of the United States of America, Incorporated. Neither one of these are the actual country, nor are they the actual country's government. They are corporation franchises, obligated to obey whatever the parent corporations say.

That's why Europe has no policies of its own. That's why Europe has lost its voice. Europe doesn't even have its own money. It has EUROS --- debt notes that just force it deeper and deeper into eternal debt and which never credit all the actual goods and services that are being inequitably exchanged for these notes. It's the same criminal scheme as FEDERAL RESERVE NOTES, transferred to Europe.

The European Parliament? This is a consortium of delegates from all these colluding municipal and commercial services franchises, meeting together and scheming how best to bilk the people of Europe, just as the U.S. (British Territorial) Congress has bilked the people of this country, under conditions of fraud, deceit, and color of law.

To understand this better, look at the history of South Africa, and how Cecil Rhodes' British South Africa Company was put in control and used "as" the government of South Africa. This was the first time that the Brits tried this "business model" and this substitution of a corporation in the business of providing government services for an actual government has become their stock-and-trade.

Look at the history of the British Raj in India. This time, they substituted a British East India Company franchise in place of the Indian Government(s). They just plopped down their "governmental services corporation" and called it "India, Inc." and began bossing everyone around and pretending to be the government and taking over control of the functions of local government, robbing the Maharajahs at gunpoint, while smiling at the rest of the world and pretending that this was all agreed upon, and just payment owed for their "governmental services".

So the British and their Holy Roman collaborators on the Continent have colluded for over 150 years in this scheme to substitute franchises of their own parent corporations for the lawful governments owed to the living people of this planet.

While they started out as merely corporate businesses, by the beginning of the 1900's they had all incorporated.

Their ultimate scheme has been to establish a form of feudalism as the all-encompassing World Government. We call it Corporate Feudalism. Instead of serving a King, the new Serfs in this system would serve a Thing --- a Corporation --- "representing" their national government. And this corporation would serve its hidden shareholders at the expense of everyone in the country.

The World Economic Forum, like the EU Parliament, is nothing but a foreign "legislature" for the colluding corporations supporting the drive toward Corporate Feudalism. The CEO's of all 4,000 plus members of the WEF all need to be arrested as traitors to their countries.

When a corporation is used to replace the lawful national government, it gives up any claim to sovereignty, and is reduced to the level of any other municipal or commercial services corporation.

When a foreign incorporated entity -- a franchise of a parent corporation -- is used to replace the lawful national government, it not only loses any claim to sovereignty, it also loses any claim of independence; as a franchise (like a McDonald's or Dairy Queen franchise) it is obligated to follow the parent corporation's "Public Policies" with slave-like obedience.

Read that: FRANCE has no real say in anything, it must obey the parent corporation, the soon-to-be utterly defunct UNITED STATES Corporation. Germany, Incorporated, can't buck against anything that the U.S.A. Incorporated demands. Whatever policies and procedures and legislation the parent corporations produce, the franchises have to obey.

This goes far, far beyond being a "friend" to The United States (our country) and involves a de facto dependency on and enslavement to disguised, marauding British Crown corporations and Roman Municipal corporations, all merely named after our country and instrumentalities of our government, so as to steal our identity and promote a vast commercial fraud.

This is the reason that Jeffrey Sachs is confused about the "craziness" and senselessness of what he sees coming out of the "American" Government. It's because he is mistaking these illegally implanted governmental services corporations for our government.

This is why Jeffrey Sachs keeps shaking his head in disbelief and observing that "they" the people who don't talk to anyone, are playing non-communicative game

theory scenarios. What does it profit them to talk to their victims? They are afraid that we'll catch on to the fact that they are corporations like any other corporations, and destroy them.

This is why Jeffrey Sachs observes this "strange foreign policy" on the part of "the US" --- any foreign government it doesn't like, it just removes. They put Zelensky in. If he doesn't lock step as a good little franchisee, they will take Zelensky out again. That's exactly what Trump moved to do last week. That's why Zelensky came crawling back, begging forgiveness.

And as for CANADA giving \$950 Trillion in "Life Force Value Annuities" to Prince Philip while failing to pay its own bills and fronting a \$100 Billion dollar trade deficit each year, well, Justin Trudeau just met the Receivers of CANADA's bankruptcy.

None of these corporations are the actual countries, nor are they the actual national governments. They are commercial usurpers, incorporated "governmental services providers" acting in capacities that are completely unjustified.

This is what is going on in Europe, just as it is going on in the former Commonwealth and The United States and Japan and South Korea and everywhere else these well-disguised mercenaries have been allowed to set up shop and ply their wares.

Now that you and Jeffrey Sachs know this, it is time to take action.
