

## The History and Limits of "Executive Orders"

By Anna Von Reitz

Abraham Lincoln issued the very first Executive Order, dishonestly labeled Executive Order 100, otherwise known as the Lieber Code in the spring of 1863, on the day before he bankrupted the United States of America, Incorporated. This was not a coincidence.

Lincoln, who had been secretly prosecuting an illegal Mercenary Conflict and calling it a "war" for three years, was also acting as the President of a foreign British Territorial Corporation calling itself the United States of America, Incorporated, while passing himself off as the President of our Federation of States.

The nickname "Honest Abe" was entirely tongue-in-cheek.

By these legal maneuvers, Lincoln seized dictatorial powers for himself as "Commander in Chief" of a British Crown corporation in time of war, and as a result, what was illegal for an American President, became completely legal for Lincoln.

He could now exercise unbridled executive power as the captain of a ship made of paper, and use the U.S. Army to enforce it.

The issuance of his first Executive Order marked the time and date of Lincoln's greatest fraud and most outrageous seizure of unauthorized powers, in which he revealed himself to be a British Interloper and Pretender.

Lincoln deceptively substituted his private office as the "President" of a British Crown Corporation for the public office of The President of The United States of America -- the presidency of our unincorporated Federation of States doing business as The United States of America.

Those familiar with the 1819 ratification of the Titles of Nobility Amendment knew that Lincoln was not eligible to serve as the actual President of this country and resisted his pretenses; the bulk of the American populace was left uninformed.

And so the rot began, and the British Raj was established in America, as well as India, at about the same time.

They never actually won any wars against America, or India for that matter, they simply used fraud and impersonation to promote their assumptions of power, and once in place, continued to quietly parasitize their unwitting hosts.

All so-called "Executive Orders" do not apply to the General Public of this country. They only apply to the actual employees of the District of Columbia Municipal Corporation operating as British Territorial U.S. Citizens--- although the officers of the American Raj routinely subourne compliance under color of law, simply by pretending to represent our government.

It is apparent to any school child that the extent to which these hoodlums represent us is strictly limited and clearly stated among the delegated powers established by The Constitution of the United States of America, and that they have no other powers, executive or otherwise, in this country.

For example, they and their "Presidents" have no right to censor American air waves or set up a British Title System in America or enter the American States without an Egress Treaty or say one word to Americans about health --- public or otherwise.

Lincoln's 1863 power grab was followed up by numerous other acts of deceit and fraud that bubbled along in the form of war profiteering and double dealing that led to the First World War, and when that British Dog Pile finally came to its fruition, led directly into the "Roaring Twenties" and the Great Depression.

None of this was coincidental, either.

The G-5 nations agreed to bankrupt their "national corporations" at the [May 1930](#) Geneva Convention. They did this by Treaty.

Franklin Delano Roosevelt was the U.S. representative at these meetings. He was elected President of the United States (Incorporated) two years later, in 1932, when the effect of this bankruptcy agreement was becoming apparent.

The purpose of bankrupting these so-called "national corporations" was to offload the debts of these foreign-owned governmental service corporations onto the backs of the working people of the respective countries.

Over the course of the next fifteen years FDR would preside over the Second World War and use both the Great Depression he created and the great conflict it spawned as his excuse to impose slavery on the Municipal citizenry, involuntary indentured servitude on the British Territorial U.S. Citizens, the theft of 20,000 Metric tons of privately held American gold, the creation of over 350 new Government Agencies the people of this country never authorized, and allowing the Japanese to bomb Pearl Harbor even though he had days of prior knowledge of the attack.

The death dates of both Lincoln, a Republican, and Franklin Delano Roosevelt, a Democrat, should be national holidays.

Instead, Lincoln has a Memorial on the Mall in Washington, DC, and is hailed as the Great Emancipator --- and nobody notices that the only people he "emancipated" were the Southern Plantation Owners who were emancipated from the legal responsibility of caring for and providing basic food, clothing, and shelter for their slaves.

And FDR is lionized as a great hero of the common people, the laborers of the nation, whom he betrayed into the control of international unions that continue to mislead and bleed them to this day.

The unauthorized government agencies that he empowered with the ability to write and enforce administrative code -- which these unelected bureaucrats enforce upon the public under color of law -- and the entire out of control bulk of the federal bureaucracy he created, is lauded for all the non-productive jobs generated by this process.

This cancerous and self-generating growth of the so-called governmental services sector is what has led to AFSCME, the American Federation of State, County, and Municipal Employees, (founded in 1932) to be the largest labor union in the world.

So, now, let's combine the total effect of Lincoln plus Roosevelt on the Federal Government -- the two foreign Municipal Corporations housed in the District of Columbia -- in terms of "Executive Orders" which have been foisted off onto and misapplied to the General Public and to our public infrastructure in this country.

An excellent summary of this unauthorized practice of issuing "Executive Orders" by foreign corporation officers and misapplying these orders to our people and public infrastructure recently came across my desk, and so I am reposting the highlights here:

EO [Quote] 10990 allows the [British Territorial] Government to take over all modes of transportation, highways and seaports. [This is what they use as their excuse for claiming to own your private cars and trucks and for forcing their registration as commercial motor vehicles when they aren't being used in commerce.]

11995 takes over control of all comms, telecom, internet, tv, and radio. [We have been under censorship and media gag orders since the First World War, leading to Americans being clueless about actual world events.]

10997 takes over all electrical power, gas, petroleum, fuels, and minerals.[This is how they can bargain with the Arabs and promise not to develop American crude oil reserves so as to artificially manipulate the world oil markets. This is also how they threaten electrical black outs and defer payments owed to you as the purported owners of all these electrical cooperatives: they stick you with the costs of these organizations, but never share out the profits.]

10998 seizes all means of transportation, cars, trucks, and vehicles of any kind. [Follow up to 10990 above.]

190999 takes over all food resources, and farms, the food now [purportedly] belongs to them. [This is what they use to manipulate commodity markets, accuse people of "hoarding" as a crime, and take other illegal and unlawful measures against the General Public.]

11000 takes over and mobilizes work brigades, under "government" supervision. [Think of Prisons for Profit schemes promoted throughout Great Britain in the 1970s, 80s, 90s and early 2000s. Realize that there is a reason that 25 million Americans are incarcerated at any given time --- a far, far greater percentage of our population than any other country, and no, it isn't that we are endemically given to criminal behavior. Rather, we have a criminal government that profits itself by accusing us of crimes.]

11001 takes over health, education, and welfare. [This is what they use to assert authority to force members of the General Public to take vaccinations, pay for abortions, submit our children to their version of "Public Education" and pay for ever-increasing welfare benefits that are used to pay for votes in their private corporation elections --- which are passed off as public elections to the gullible people of this country.]

11002 designates the postmaster general to operate a national registration of all persons. [This is part of the apparatus used to create the commercial

corporations named after you in DOG LATIN -- yet another grossly criminal scheme used to defraud and obtain illegal and unlawful coercive power over people.]

11003 takes over all airports and aircraft. [This is why airplane pilots could not refuse vaccinations and the reason that the airlines had to impose all sorts of ridiculous mask regulations, etc.]

11004 allows the housing and finance authority [whatever that is and wherever it came from] to relocate communities, build new housing with public funds, designates areas to be abandoned per Agenda 21 and 30. [We see this taking place in the DEW fires that engulfed Paradise, California and Lahaina, Hawaii, and which are now decimating the Gaza Strip. These vermin have got to be stopped and the only way to do it, is to cut off their supply of money and labor, expose their lack of authority, and accuse them as the criminals that they are.]

11005 allows the takeover of the railroads, inland waterways, and public storage facilities. [Hint: if you have anything in a storage unit that is needed for your survival in hard times --- food, equipment, clothing, armaments --- anything like that, you'd better have it in your possession, or between roadblocks and illegal seizures and obstructions, you won't be able to get to your stuff in time of need.)

11921 takes control of banking --- [even though they have absolutely no right or authority to say anything about banking and are not doing their one explicit duty to supply adequate and stable currency.]

13603 grants themselves the ability to demand forced uncompensated labor for indefinite time periods (an attempt to legalize slavery) and in [February 2010](#), forced internment and resettlement operations. [Is anyone ready to wring Congressional and "Executive" necks yet?]

11005, 11310 --- these "Executive Orders" grant authority to the Department of Justice to enforce the executives orders listed and much more.... [Unquote].

So, how, you might be wondering, have these cretins running the American Raj for King Charles (we should say, Emperor Charles III, because he is not acting

as a King) and the FRANCISCUS Corporation, gotten away with according themselves all these authorities and powers in violation of the Supreme Law of the Land?

Well, it's quite simple. We are dealing with the American Raj -- the American version of the same illegal takeover activities we saw in India, promoted by the British Crown Corporation and its Roman competitors. Both brands are equally guilty of crimes against humanity, breach of trust, fraud on an unimaginable scale, mercenary profiteering, war profiteering, unlawful conversion, violation of their service contracts and many, many other crimes.

They can't impose their self-proclaimed executive "powers" on anyone but their own corporation officers, employees, and dependents, so they falsely register you as one of their employees or dependents via various undisclosed registration and application processes.

Like the registration of Birth Certificates, which results in unlawful conversion of your political status as Americans in violation of both the Hague and Geneva Conventions.

So, it's time to shove it down their throats, and the most peaceful and effective way to do that, is to correct the public international record concerning your political choices and status, populate your country's land and soil jurisdiction, stand up your courts of General Jurisdiction, enforce the Law of the Land, and send the British Raj packing.

And we repeat --- the only ones obligated to obey any executive orders issued by the "commander in chief" of a British Crown corporation, are the officers, employees, and dependents of that corporation. Not the General Public.

None of these grandiose claims to have control of anything hold water, because they are issued without authority or consent of the actual owners, the purportedly missing Americans, who are in fact present and accounted for.

Possession by pirates does not change ownership.

Even the actual officers, employees, and dependents of these corporations have been hornswoggled into undisclosed, false, and misleading contracts, and induced unknowingly to act as mercenaries and to commit illegal acts for the profit of these same corporations --- as a result, there isn't a member of any of the United States Military Services with a valid service contract.

Not only can service members not hold these corporations to perform upon their benefits and salaries, but these corporations don't have a leg to stand on if these service members walk off the job and refuse to follow their "executive orders".

These Municipal Corporations and their franchises have all been misled and abused for criminal purposes and must be either liquidated or forfeited to the actual government of this country, as embodied in our State Assemblies which hold General Jurisdiction and our Federation of States operating in international and global jurisdictions.

All "Executive Orders" pertain only to the executive branch of the respective Municipal Corporations headquartered in the District of Columbia and are owed no special or general enforcement outside the subject corporations and their limited enclaves.
