

## Hot and Smoking

Dr. James Lyon-Weiler on fire --- gives the most extensive and scientifically correct critique of the upcoming vaccine and the process that led to it, that I have heard yet.

A few highlights to whet your stone:

HSS is the Defendant in the Vaccine Court. And they determine which vaccine injuries are "real".

Here is the link to Dr. Lyon-Weiler's comments at the Pennsylvania Medical Freedom Press Conference, though I don't expect it to survive for long---copy, promulgate, and share, share, share:

As Dr. Lyon-Weiler notes, 21% of those who participated in the first vaccine test study suffered serious adverse events.

As he also notes, clear, simple, inexpensive, and readily available treatment for Covid-19 has now been developed.

See the fact that China isn't on lockdown and isn't suffering any pandemic. Neither is Italy.

Why? Because they started using effective treatment.

This is good news, so why aren't you hearing it?

As he also notes, no Terrorist could be as effective in harming this country with a bomb as our Press Corps. The constant, inaccurate reporting of deaths and fear-mongering has already cost us far more.
