

# International Public Notice: Housecleaning for Donald Trump

By Anna Von Reitz

First, a note to Donald Trump: in order for people to do things lawfully (land) and legally (at sea), which we agree is necessary and good, those people have to have standing to take action.

Standing is a fundamental prerequisite of jurisdiction. The people taking the action must have standing -- think of it as firm footing and actual interest in the action and the subject matter, meaning the actual physical substance that is being acted upon, in our case.

Now, we see that you are going to try to be inaugurated as President of The United States, meaning the entire country, because since 1851, the name of this country is The United States.

Presumably, you are going to try this end run based on the several "Republics" that U.S. Citizens have founded around the country and also presumably, you will try to claim that this is a proper action because some of them have claimed back their birthright nationality as American State Nationals.

While all that is well and good for Federal Citizens to do, it doesn't give them standing to speak for any county in this country while they are still retaining any form of Federal Citizenship.

In order to do this and do it right, logic has to be followed and the Law and the history have to fit.

So let's map it out for everyone:

The Federal Government operates in only three jurisdictions -- international land (1) and sea (2) and global air (3) jurisdictions. It has no national (soil) jurisdiction at all.

The Forefathers separated out the Counties and their lawful soil jurisdiction and isolated them, so that their only avenue to international and global jurisdictions is via their State of the Union.

This was done to prevent foreign interests, like the Papal theocracy, or the British and Dutch or French Governments, from coming in here and picking the Counties off, one by one, and re-establishing their own hegemonies here.

Add to this knowledge, that the Federal Government only has delegated powers. It has no powers of its own, and must "borrow" those powers from the States of the Union, which similarly act in only three jurisdictions and which retain all undelegated powers as well as the right to oversee the exercise of all delegated powers.

It follows that all Federal Offices only exist and operate at the level of the States of the Union and only in the international jurisdictions of land (1) and sea (2) and air (3). None of them ever operate at the level of the soil.

That level of jurisdiction is vouchsafed to our Counties and the Union States that our Counties form.

The Union States taken together form The United States.

However, you are dealing with a situation in which virtually all Americans ---including yourself, have been institutionally defrauded and denatured by not one, but two, foreign registration processes.

These "certificated" registration processes, resulting in multiple birth certificates and certificates of live birth, have trafficked everyone off the land into the international jurisdiction of the sea and then into the jurisdiction of the air.

To overcome this, the situation has to be recognized and unraveled step by step. As the Maxim of Law requires: as a thing is bound, so it is unbound.

All those well-intentioned U.S. Citizens trying to raise "Republics" have no idea where they are in terms of their political status and have done nothing effective to get back on the land, much less the soil, of this country. So, you can't count on them to give you any standing to inhabit the Office of President of The United States.

Something the Brits all have to learn -- you can't give away something that you don't possess yourself.

U.S. Citizens don't possess land and they therefore also don't possess soil. Read on for a better understanding:

Our American State Citizens possess land and as they also concurrently populate the Counties where they live, they also possess soil. Our American State Nationals possess the soil directly, but American State Nationals who are acting as or adopting the status of U.S. Citizens are at sea, and their property is held in trust pending their return, so they have no standing to create a "Republic" on land or soil.

In fact, the only Republics that have ever existed in this country were established by the American Federal Subcontractor operating under The Constitution for the united States of America --- and as you can guess, that entity known as "the Federal Republic" --- operated only on land(1) and sea(2) and air(3).

Again, no reference to the actual Counties, the national soil jurisdiction, or The United States.

You boys really, truly, need to get your identities and jurisdictions and histories straight, and stop trying to do "end runs" around the facts and the people of this country.

Building on sand again is not an option.

Here is the actual, factual situation:

The Municipal Government Corporation went bankrupt under Chapter 7 and is now completely defunct. Joe Biden has no position as "President" of anything related to our government, and should have been removed as of the first of January.

All Municipal Government Employees have been paid using Territorial Government funds since the first of October and therefore are in fact now Territorial Government Employees under the Command of Donald J. Trump acting as Commander-in-Chief of the British Territorial Government Corporation(s).

Everything evil that these Subcontractors have done since October first has been done under the False Idea that Joe Biden had a right to command their services, when he doesn't and in fact, never did.

Those Municipal corporations and franchises have been in receivership the entire time that Biden has been in office, and even if that were not true, and even if all these evils -- from Maui to Gaza to North Carolina to Los Angeles -- were not directly attributable to the Bankruptcy Trustees, he still wouldn't have an office empowered to do any of the evils that have beset the world since October 1st 2024.

They are setting you up, Donald Trump. They are making it look like you were an incompetent Commander-in-Chief and failed to stand them down and countermand what they are doing. They are making it look like all this happened on your watch.

And it has happened on your watch. You haven't appeared to grasp the game they are playing and haven't taken appropriate action as a result. Technically, you stood by and let them dismantle the Southern Border. Technically, you let them filch trillions of dollars of funds out of the DOD budget. Technically, you let them use DEW weapons and "Smart Meters" to burn our towns and now, Los Angeles.

If you understood jurisdiction, you would realize that we, the Americans, now own all the assets of those Municipal Corporations. We paid for them, we bankrupted them, and we now own all that is left of them. And you would also realize that, despite Jimmy Carter, those aren't our Bankruptcy Trustees ordering all this death and mayhem. Those are international Executors de Son Tort getting away with murder and laughing in our faces, because you haven't been doing your job.

You are supposed to be countermanding them and telling them where the bear went through the buckwheat this entire time, not just fiddling in the wind and making political speeches --- that is, if you are going to represent us, as our Commander-in-Chief, not just "their" commander-in-chief.

Yes, Donald, there are "these" United States and "those" United States and it is high time and past it, when you need to be talking to the actual United States -- to us, the ones who actually know what we are doing, what we are owed, and why.

Fumbling around in the dark and being "outraged" doesn't get the job done.

Mysteriously, however, you do appear to understand that CANADA is bankrupted and its assets are now ours; you also know that the Canada, Inc., franchise is on the ropes, so as far as the business end of it goes. So you know that much, because you are already calling in debts that are owed to other people --- specifically, debts that are owed to us: the long-lost American people.

You need to tell the military the truth and you all need to go after the banks and attorneys, without whose complicity, none of this criminality could exist.

Begin by realizing that the ONLY lawyer in the entire "complex administrative scheme" who is required to know the actual law is the Solicitor General and the only reason he is required to know the law is that he is supposed to be able to defend your corporation before the United States Supreme Court.

Stop relying on Attorney Generals who don't know squat about actual law.

Do you all know what an "attorney" is? They are cargo managers and tariff collectors in the British Merchant Marine Service, just as "Taxpayers" are Warrant Officers in the same service.

Now, ask yourself, as we certainly are --- what in God's name are all these commercial maritime "officers" of a foreign country doing here? Misaddressing us, as if we were all British Territorial U.S. Citizens? And even worse, misaddressing us as "citizens of the United States"? WTF, Donald Trump?

"All enemies, both foreign and domestic." That means "domestic" with respect to the U.S. Citizenry and the Municipal citizenry of the United States. Clearly, it's time to clean the house. And clearly the foreign bankers and attorneys need to be shipped out, back out on the ocean where they belong.

All assets that they are (falsely) claiming that can't be carried on their backs, need to be nationalized. And the screen door needs to slam hard on their behinds.

As for you and your affiliates, you need to ditch the QFS and focus on the AFD, the first American asset-backed monetary standard in over a century. You need to shut down the currency brokers in Nevada, who are trying to skin Americans who invested in Dong, Zim bonds, and other foreign currencies.

A "license" is a permission to do something that would otherwise be illegal. Almost every bank in this country has been "licensed" to do business here by bogus State Trusts, operated by the same Principals as the banks applying for the licenses.

Isn't that convenient?

They gave themselves permission to do something that is otherwise illegal on our shores.

All these banks and the State Trusts approving their licensing, are illegal and unlawful and immoral and need to be shut down and returned to the legitimate authority immediately.

We call for the liquidation and return to the "State Trusts" to the actual States of the Union.

We call for the cancellation of the improperly issued bank licenses permitting foreign Maritime Commercial Banks to operate on our land and soil; we call for their immediate lawful conversion (nationalization) and the resumption of business as land jurisdiction commercial banks.

Donald Trump --- you need to stop this insanity and simply learn the ropes that have been entrusted to you. Once that happens, this country will glue together instantly, and so will the rest of the world snap back into place.

This is a lot of housekeeping, but then, we have been "absent" for the better part of a century and a half.

Notice to Agents is Notice to Principals; Notice to Principals is Notice to Agents.

Please cut Joe Biden off at the knees, realize that he has no power to pardon anyone, remove him and his entourage and any members of the defunct Municipal CONGRESS, including Nancy Pelosi and her infinitely corrupt nephew, Gavin Newsom.

The only offices these people have left are subject to you, as the "President" of their Corporation, so fire them and remove them from our sight.

Remember, please, that we are not a "democracy" and our power and rights do not depend on numbers. Like the inheritors of any other estate, our power derives from the fact that we are the actual progeny, owners, and inheritors of the estate.

Our claims are firmly lodged and documented and won't go away; our processes are sufficient to rebut all claims and trafficking activities to the contrary.

Last but not least, everyone, please spare us the insult of trying to take credit for radically downsizing the federal government? There is no choice now that the Municipal Corporation franchises are defunct, so just stop the sickening grandstanding, realize that we own every thumbtack, every bar of gold including those hallmarked as "D'Avila" and every round of silver you are presently

"repatriating" --- and you are all responsible to us in accounting for the orderly liquidation of these foreign corporations.

Elon Musk isn't the only person in this country with a brain and two eyes, so please spare us any more lies. The members of Congress can pat themselves on the back by reallocating all funds earmarked for Zelensky and Netanyahu to flood and fire victims and the lawful State Governments that are in Session, and lawful County Governments that are being restored as we speak.

Finally, please remember, all physical assets belong to physical people --- not businesses, not trusts, not titles, not patents, not all this other veneer that evil men have used to manipulate and defraud and cheat people out of what is rightfully theirs.

As for you, you don't have to be inaugurated as "President" of any non-existent corporation, and you can't be inaugurated as "President" of any valid American Federal Republic without a change of our Public Law, and you can't be inaugurated as "President" of this country without the approval of the Union States which are still being organized and not yet in Session, however, you can make the decision to act as an American in charge of all American Armed Forces and stand as our Commander-in-Chief, if you simply declare and record your birthright standing as an American State National, a New Yorker, and take the loyalty Oath required of all United States Marines.
