

Housekeeping for the State Assemblies

By Anna Von Reitz

There seems to be considerable confusion about how to handle cases wherein an American seeking to record and claim their birthright political status has only a Certificate of Live Birth (COLB). This is what they really need and all they need to get the job done.

Remember that the British Territorial Government and the Municipal United States Government are two, distinct, and different Foreign Governments acting as Subcontractors bound to honor their respective Constitutional Agreements with us. The services they deliver are separate and different, too. The corporations that they have used to deliver services are also different. So you have two different entities, one Municipal and one Territorial, to deal with, and they each interact with you via two separate entities that are foreign persons with respect to you.

The Territorial Government creates a Legal Person, which is in fact a Foreign Situs Trust, that is named after you and uses the same exact name in the form: John Michael Doe. Under certain circumstances, this familiar Lawful Person, your Trade Name, comes to represent a Foreign Legal Person and Subject of the Queen.

This happens when you are on the High Seas or Navigable Inland Waterways or when you are engaged in the interstate manufacture, sale, or transport of alcohol, tobacco, or firearms. This Person is also invoked when you enter Military Compounds, Navy Yards, Arsenals, and similar facilities. A Foreign Situs Trust is a form of trust that guarantees the safe transport of your Person while in the safekeeping of the Queen's Government, in exchange for your compliance with their codes and regulations while you are in these locations or engaged in these specific activities.

Similarly, the Municipal United States Government creates a Municipal PERSON that it uses to interact with you. This PERSON appears in a variety of forms: JOHN DOE, JOHN M. DOE, and so on. Each of these is a separate franchise entity created as a shareholder or member or donor, etc., in some kind of commercial trust, business, organization, or enterprise. JOHN DOE is a beneficiary of a Public Charitable Trust, a Pauper on the Dole of the Commonwealth. JOHN M. DOE is a Public Transmitting Utility. And so on. These are all Vassals of the Pope and part of the Federal Civil Service System.

This form of PERSON was meant to create a convenient accounting system by which people could contract for and pay for specific services to be provided by the Federal Civil Service. As such, these PERSONS are more like Trademarks standing for a specific Service Account. The ubiquitous Social Security ACCOUNT is one example that acts like an umbrella corporation for various social services, the JOHN H DOE ACCOUNT is a public transmitting utility franchise used to track use of public utility services, and so on and on.

This is where things got totally messed up, thanks to FDR and his Administration.

FDR pledged the "citizenry" of the Federal Civil Service to the Pope, to be chattel backing the debts of his government, and then failed to make any distinction between Federal Civil Service Employees and the rest of us. He incomprehensibly alluded to this in his First Inaugural Address as President of the Municipal Government and its for-profit Municipal Corporation. What followed was a criminal enterprise based on impersonation, racketeering and identity theft on an absolutely massive scale. In 2015, the Municipal Corporation responsible was forced into Involuntary Chapter 7 Bankruptcy and we are still sorting out the aftermath. The corporation assets which include all the franchises and their purported assets are being liquidated, but the problem is, that these franchises should not exist and were all created under condition of non-disclosure and constructive fraud.

This leaves the Bankruptcy Trustees trying to sort this mess out. We staked our claims in 1998 and followed up in intervening years. We placed liens against the National Credit accounts backing the National Debt so that Secondary Creditors couldn't claim them. We placed more liens against the assets of the Municipal STATE OF STATE organizations to preserve our State's property interests and prevent them from being "subsumed" as Abandoned Assets, etc.

So the Big Mess and all the worst problems are associated with the misuse and abuse of all these Municipal PERSONS.

That's why we appointed Steven T. Mnuchin, an Interpol Officer, to act as Fiduciary of the Primary ACCOUNT created by the Municipal BIRTH CERTIFICATE process, and instructed him to roll it over into the Territorial United States Account for Safekeeping. That gave both Mr. Mnuchin and Mr. Trump, jointly, a right and an obligation to intervene in our behalf and to protect our assets.

Working in tandem with the US Bankruptcy Trustees (not all of whom like the results) the creation of new birth certificated ACCOUNTS has been stopped with respect to those claiming their birthright political status and as the clean up progresses, the only birth records that will remain will be the Certificates of Live Birth, which very clearly pertain to a living man or woman and the creation of the Foreign Situs Trust they are owed, if and when they decide to participate in Federally Regulated activities or enter military facilities, etc.

As more people are coming on board in this post-bankruptcy period, more and more of them will be receiving only a Certificate of Live Birth (COLB) and that means that there is no longer a Municipal PERSON to be dealt with in their case. They don't have to go through the Form 56 Process anymore, because they don't have a Municipal PERSON attached to them anymore, and it must be noted, in a few cases, they never did have a Municipal PERSON operating in their name at all.

So when people come to join the Assembly and all they've got is a Certificate of Live Birth (COLB), that is just fine. Accept them and exempt them from the Form 56 process and don't treat them any differently than anyone else in the Assembly. It's just that changes in circumstance and administration have occurred so that they no longer have to go through this particular part of the Turkey Trot.
